HART BROTHERS CELEBRATE MASS

Two Andover Young Men Recently Ordained to Priesthood Say Mass in Local Church. Assistant General of Augustinian Order Master of Ceremonies

Rev. Fr. Leo Hart and Rev. Fr. Charles A. Hart, sons of Mr. and Mrs. Daniel Hart of 20 High street, celebrated their first masses Sunday morning in St. Augustine's church, the former at nine o'clock and the latter at 10.30. The church was crowded with worshippers at both masses.

The young priests were unusually honored, for the master of ceremonies was their cousin, Very Rev. Fr. Charles M. Driscoll, assistant general of the Augustinian order at Rome, who also assisted at their ordination at Villanova a week ago. There were also scores of present and former students at Villanova, some of them classmates of the young priests, coming from far and near to honor them.

At the nine o'clock mass, celebrated by Rev. Fr. Leo Hart, Rev. Fr. Charles A. Hart was deacon and Rev. William W. Donovan of Schaghticoke, N. Y., a former assistant pastor of St. Augustine's church, and an Andover man, was sub-deacon. Within the sanctuary were Rev. Fr. John A. Nugent, Rev. Patrick J. Campbell of St. Augustine's, Rev. Fr. Martin of St. Mary's, Lawrence, Rev. Frederick S. Riordan of St. Lawrence's church, Lawrence, who preached the sermon, and Edward Carney of Everett, a cousin of the young priests, who is studying for the priesthood.

The 10.30 mass was celebrated by Rev. Fr. Charles A. Hart, with his brother as deacon. Rev. Francis Ronan of St. Lawrence's church, Lawrence, an Andover boy ordained a year ago, was sub-deacon. Very Rev. Fr. Driscoll was again master of ceremonies. At the benediction he bestowed the papal blessing.

It was Fr. Nugent's first opportunity to appear before his parishioners since his return from his pilgrimage to Rome. He preached from the text: "Thou art a priest forever according to the order of Melchisedec." He expressed his gratification at having present Very Rev. Fr. Driscoll, assistant general of the Augustinian order, from Rome, and rejoiced with the parents of the two young men who had celebrated their first mass, and were ordained to the priesthood last week.

From the hands of their sons, Mr. and Mrs. Daniel Hart and other members of the family received communion, the first the young priests had administered. Many others of St. Augustine's parish also received communion at both the 9 and 10.30 o'clock masses. At the close of the last mass hundreds knelt at the altar rail and received the blessing of the young priests.

The ushers were James J. Dyer, a former Villanova student, John P. S. Doherty, John L. Dugan, and Augustine Sullivan. The musical program by Miss Annie G. Donovan, organist and director, choir and soloists, was finely rendered. Mozart's Twelfth Mass was used, with "Lovely Apppear" from Gounod's "Redemption" as a processional. At the offertory Michael Byrnes sang Millard's "Jesu Christ" at the nine o'clock mass, and Rev. Fr. Michael A.

REFUSE BUS PETITION

License Not Granted to American Coach Company and Puritan Coach Lines Given Leave to Withdraw

It was unanimously voted at a recent meeting of the Board of Selectmen not to grant the petition of the American Coach company to operate motor busses for the carriage of passengers for hire through Andover en route between Boston and Lawrence. The petition was presented to the Board of Selectmen several weeks ago and a hearing was held on July 23, with representatives of the American Coach company and of the Boston and Maine railroad present. The decision on the matter was reserved till this week.

The Puritan Coach Lines, a Boston company, has also presented a petition asking to operate six busses between Lawrence and Shawshen, Shawshen and Andover and Andover and North Reading. The company has been given leave to withdraw its petition.

Camp Auxiliary Whist Parties

The first of a series of whist parties under the auspices of the good of the order committee of Walter L. Raymond Camp, S. of V. auxiliary will be held in G. A. R. hall, Musgrave block, next Wednesday evening. They are open to the public and valuable prizes will be awarded.

The committee in charge comprises Mrs. James MacCord, Mrs. G. Kibbee, Charles G. Kibbee and Charles Evans. The parties are planned for the first and third Wednesday of every month.

The concert to have been given this evening at the Park by the Y. D. band has been postponed until next week, the exact date to be announced later.

Protest Blowing of Whistle

Residents along the Boston & Maine railroad in the vicinity of this station are circulating a petition, protesting against the unnecessary blowing of whistles by locomotives as they approach the crossing at Essex street. It is alleged by the objectors that with a gate-tender and a bell signal at the crossing there is no need of the whistling. It is claimed that it is very disturbing to sick persons and also disturbs sleep during the late evening and night.

The territory which is protesting embraces Central street, lower School street, Essex street, North Main street, Pearson street, Harding street and High street.

Many signatures have already been obtained and the petition will be sent to the president of the railroad. Other towns along the line have protested against the whistling with successful results.

LOCAL NEWS NOTES

Mrs. Susan Wood of Elm street is spending two weeks at Kittery, Maine.

Mrs. Wright H. Stafford of Wolcott avenue is at York Beach for a short time.

Miss Madeline Fitzgerald, clerk in Hiller's store, is having her annual vacation.

Misses Emily and Mary Richards have returned from a vacation spent in Danville, Vt.

Mr. and Mrs. Harold Cates and daughter, Alice, are enjoying the sea breezes at Hampton Beach.

Kerr Sparks, permanent man at the Central Fire Station, started on his two weeks' vacation Monday.

Mr. and Mrs. Andrew Collins and daughter Flora, and Mrs. Drescher of Wolcott avenue are touring Canada.

Miss Eliza Smith and Edward Smith, left for New York last Friday where they will spend a short vacation.

Roger Whitcomb, youngest son of Mr. and Mrs. Monte Whitcomb, is at Rand's camp, Randolph, N. H., for a vacation.

Indian Ridge Rebekah lodge will hold its regular meeting Monday night at 7.45 o'clock. Important business will be transacted.

Mr. and Mrs. Omar P. Chase of Elm street are spending two weeks' vacation at the former's old home in Springfield, Vt.

Miss Evelyn Jenkins of the Phillips academy office is having her annual vacation which she is spending in trips along the coast.

Dr. Nellie B. Bliss of Somerville, formerly of this town, has opened a summer office at Harwich Port for the practice of osteopathy.

Mrs. Amy L. Briggs has returned to her home on Main street after an extended vacation spent at various places in the state of Maine.

Miss Eunice Lovejoy of the treasurer's office at Phillips academy is having the month of August for her vacation which she is spending in Portland, Maine.

Mr. and Mrs. Herbert Lyle of Bartlett street and Police Officer James Walker and Mrs. Walker are enjoying an automobile tour through the White mountains and Canada.

The next meeting of the Andover Natural history society will be the lawn party and social to be held at the home of Mrs. H. S. Jenkins on Ballardvale road on August 18. Basket lunch will be taken.

There will be a big whist party in the Knights of Columbus hall on this evening. Miss Helen Hickey is in charge and a large number of beautiful prizes are to be offered the winners. The public is invited.

The inside repairs and renovations at Wilber Block on Maple avenue, owned by J. H. Campion and H. W. Barnard, are all completed and the grading and concrete walks are being put in. W. J. Doherty had charge of the carpenter work and W. H. Welch & Co. the plumbing.

LOCAL NEWS NOTES

Leonard Ronan of Morton street has accepted a position in Somerville.

Miss Marion Shea of the Uwoco mill office is enjoying her annual vacation.

Miss Isabelle Killackey of Essex street is spending her vacation in Bethlehem, N. H.

Mr. and Mrs. Thomas B. Flynn of 28 Salem street are at Candia, N. H., for two weeks.

Carl Wetterberg of Hartigan court has accepted a position in the Tye Rubber company.

Mr. and Mrs. John S. Robertson and family of Avon street have gone to New Bedford for a short stay.

Mrs. John J. Cady and daughter of Florida, are visiting at the home of Mrs. Fred Westcott on Summer street.

Bert Williams of Pasadena, Calif., is visiting at the home of Mr. and Mrs. Wilson Knipe, Walnut avenue.

William Morse of Bayonne, N. J., is visiting at the home of his brother, Walter I. Morse of Elm street.

Mr. and Mrs. Charles Hill and family of Chestnut street have left for Wells Beach, where they will spend a vacation.

Miss Anna Hickey, who has been visiting with relatives in town for the past two weeks, has returned to her home in Needham.

William Barnett of Burnham road has resumed his duties at the Tye Rubber company following an operation for appendicitis.

Misses Agnes Hannon, Ruth Watson and Helen O'Brien, operators at the local telephone exchange, are at Salisbury Beach for the week-end.

James J. Dyer, Tribune correspondent, and George Lannon of Lannon's market, are enjoying a week's automobile tour of the White Mountains.

Mrs. George Brown of Elm street, Mrs. Harry Gouck of Burnham road, with Annette Anderson and Frances Metcalf, are spending a week at Salisbury Beach.

Mrs. Thaxter Eaton left town yesterday for Burlington, Vt., where she will join Mr. Eaton and attend the summer outing of the New England Federation of Harvard clubs.

Rev. William G. Poor of Upton, well known to Andover people, will be the preacher at the Free church on Sunday morning. Rev. Charles A. Dinsmore D.D. of Yale University will preach at the South church.

Rev. and Mrs. J. D. Cameron of New Egypt, N. J., former well-known residents, were visitors in Andover last Saturday. They were spending a vacation in Antrim, N. H., and Mr. Cameron preached on Sunday in the church where he was pastor before going to New Egypt.

YOUNGER GIRLS LEAVE CAMP

Field Day and Farewell Supper Round Out Successful Two Weeks. Awards Made to Those Who Fulfill the Camp Requirements

BURGLARY ON MAIN ST.

Family of Lester E. Lynde Loses Valuable Family Heirlooms. Thieves Enter Through Rear Window

Burglars thoroughly ransacked the house of Lester E. Lynde, 195 Main street sometime Wednesday night or early Thursday morning, securing as plunder clothing, jewelry and flat silver.

Entrance was gained through a downstairs window. Apparently several attempts were made before they were successful in forcing a window. Mr. and Mrs. Lynde had been absent for about ten days enjoying a vacation at West Lebanon, Maine, so that the house was unoccupied at the time of the robbery. The break was discovered by workmen, the next morning, when the house was found in the greatest disorder, closets and drawers having been thoroughly ransacked, even a trunk in the attic having been broken into.

Mr. Lynde was in town on Thursday and gave to the police a list of the missing articles which include tea spoons, table spoons, coffee spoons and other flat silver, a gold chain, a pearl necklace and a Tuxedo suit. Only solid silver was taken and evidence points to the fact that the work was done by someone more or less familiar with the house.

Richard Griffin, state detective, has been called to work on the case.

Large Public Garage Under Construction

Plans have been drawn and work started on what will be one of the biggest public garages in this section, on the land on Park street owned by John F. McDonough.

It will be built on the site of the old Snow stables, destroyed by fire over a year ago and will cover the whole area.

There is a frontage of over 100 feet and a depth of over 200. The foundation wall on the westerly side of the land has already been laid and material for building is being brought to the lot.

The garage will be for pleasure cars and trucks and a first class repair shop will be included in the plans which provide for at least 100 cars. It will be of fireproof construction throughout.

Board of Public Works Awards Coal Contract

The Andover Board of Public Works at its monthly session, awarded the contract for 125 tons of New River coal to the Andover Coal company at \$7.94 per gross ton to be delivered at the pumping station.

The contract for sewer pipe was given to the Portland Stoneware company. No specific amount of sewer pipe was stipulated in the agreement. It is to be delivered in old lots at 57 per cent off the list price for double-thread pipe, and 70 per cent off the list price for single-thread pipe.

The awards for meeting the camp requirements in swimming, nature study, camper-

Many local people and guests from out of town attended the annual field day by the younger group of girls at Camp Andover at Pomps' pond Saturday afternoon.

Miss Adolphia M. Allen of Boston directed the events and the folk dancing. The dancing was given by Leah Grenfell, Lois J. Noyes and Adelaide Turner of Jamaica Plain, Elvah Blodgett, Helen Trout and Mary Govatos of South Boston, Ruth Day, Beatrice Holder and Margaret Foster of Dorchester, Dorothy Ross of Jamaica Plain, Gladys Thomas and Eleanor Davis of Bedford, and Doris Elwell of Watertown.

Cooper bungalow excelled in the stunt program, performed by G. Valerie Delano of Dorchester, Anna Barnes of Bedford, Mary Dimond of Allston, Eleanor Dix of Allston, Elizabeth Dixon of Jamaica Plain, Florence L. Dunn of Dorchester, Celesta Eaton of Melrose.

Summary of events:

Volley Ball Relay—Won by Group A. Three-Legged Race—Won by Group B. Suit Case Race—Won by Gladys E. McMillan of Winchester.

WATER SPORTS

Tug of War—Won by the Greens: Joy Adriance, Winchester; Eleanor Davis, Bedford; Florence L. Dunn, Dorchester; Dorothy J. Enbeldart, South Boston; Deborah Gilbert, Winchester; Mary Govatos, South Boston; Barbara Homan, West Roxbury; Beatrice Holder, Dorchester; Louise H. Hook, Methuen; Dorothea Krug, Waltham; Florence List, East Boston; Florence Littlefield, West Medford; Kathryn Manker, Dorchester; Betty Manker, Dorchester; Helen E. Sampson, Dorchester; Marguerite Seymour, Boston; Muriel Sutcliffe, Boston; Helen L. Trout, Chelsea; Muriel Wharton, Boston; Louise F. Wood, Stoneham.

Egg and spoon swimming race won by Ruth Day.

The counselors at the girls' camp this year are the following: Miss Adolphia Allen of Boston, head counselor; Miss Alice Miles of Cambridge, Miss Eugenia Parker of Winchester, Miss Elizabeth Thomas of Dorchester, Miss Rachel Boutwell of Andover, Miss Katherine Farlow of Andover, Miss Helen Whittier of Baltimore, Miss Lillian Olson of Concord, Miss Louise Howland of New Bedford, Miss Mary Armentrout of Alabama, Miss Marjorie Holmes of Boston.

The farewell dinner for the younger girls followed by the presentation of awards was held at Camp Andover last night. The young people made merry with their camp songs and cheers and fine and helpful talks were given by "Uncle" K. A. Campbell, Jr., and "Aunt" Adolphia Allen.

Among the guests of the evening were Mr. and Mrs. Philip Ordway, of Bangor, Maine, father and mother of Miss Helen Ordway, formerly a beloved counselor at the camp. H. C. Ordway, her brother, together with his wife, Mrs. H. C. Ordway of Winchester, Mr. and Mrs. C. Carleton Kimball and Mr. and Mrs. F. H. Foster of this town.

The awards for meeting the camp requirements in swimming, nature study, camper-

Court Lincoln and Hardy-Ross Game Protested

In a game freighted with friction and replete with thrills, St. Jean on the mound for Court Lincoln of North Andover, won his own game and sent the Hardy-Ross aggregation of Andover home with a 7 to 6 defeat from a game played on Grogan's Field Monday evening. He came up in the seventh inning with the score standing 6-6. He rapped out a single, scoring Hilton and Kobos who were on second and third.

The North Andover boys went into that inning with the score 6-4. Jenkins, the first man, up, got a hit, and he scored on Kobos' single, who advanced to second on the throw to home. Hilton got a hit and both men scored on St. Jean's single.

Aside from that inning, in which he issued four hits to the first four men to face him, Dyer of the Hardy-Ross pitched a fair game, and had the edge on St. Jean. He allowed seven hits, three of these in six innings, fanned six men—putting them out in order in the fifth. His mates made eleven hits, six of these in the first two innings, from which they realized only one run. He passed four.

On the other hand, the North Andover boys made two hits in the first two innings and scored four runs through errors and through faulty fielding.

St. Jean was touched up frequently in the first stages of the game, but as the game progressed he bettered and save for the sixth, in which the Andover boys scored five runs, he did a fair job.

In the sixth, with the North Andover boys ahead 4 to 1, Hardy-Ross came to bat. Lynch got a hit, Dyer did the same. Lynch died at third, being forced out by La Plante on Swenson's fielder's choice.

Nelligan got on through La Plante's error and Deyernmond and Swenson scored. Souter hit one and it was bungled. Nelligan made for the plate. He was safe and in an argument between Jenkins and Nelligan, Souter came in.

The crowd, which at this stage of the game was excited, surged onto the field. But the splendid policing of the North Andover force prevented any trouble, and the game was resumed.

Wright hit a fielder's choice and it was bungled by Broadbent. He advanced on another fielder's choice, which was bungled, but died on third, Jenkins to La Plante. Dyer got once through an error. Blunt singled, scoring Dyer. Lynch fled out to Tahan.

In the second inning Court Lincoln tallied. Kobos was passed, but was forced at second on Hilton's hit. St. Jean singled. Tahan laid one down the first base-line. Stevenson recovered and threw to first, which was uncovered. Blunt made a wild peg to the plate and St. Jean scored, preceded by Hilton.

In the third Kobos hit a double, scoring Jenkins and Broadbent, who reached first on errors.

Souter in the first frame got on when his hit forced Nelligan out at second, who singled. He scored on Wright's single.

The game has been protested and will be replayed at Grogan's field, North Andover, Saturday afternoon.

Junior Baseball

The Lucky Strikes defeated the Rovers by the score of 7 to 6 on the Playstead last Friday. Reed was on the mound for the victors and he pitched a fine game. Several errors brought in three runs for the victors and four for the losers. The Lucky Strikes lineup was J. Cole, c.; R. Reed, p.; M. Murphy, lb.; G. Kelley, 2b.; P. O'Connor, s.s.; A. Jackson, 3b.; C. Young, l.f.; C. Gallant, r.f.; A. Cole, c.f.

State Department Offers Advice

Some people eat just the right things, but never get up to normal weight; sleep long hours, but never feel rested, take plenty of exercise, but never feel pepped up. Perhaps the trouble is lack of regularity.

Even though the food is of the right kind, the body will rebel if it isn't eaten at regular times. It doesn't do to snatch a cup of coffee and dash off to work with no breakfast, counting on making up the lack at dinner time. The body rebels against a vacuum for four hours, then an overloaded stomach. To work well, the body machine should have attention at regular intervals. The same is true of other health habits. It doesn't do to dance all night for two or three nights, and try to make up sleep the next two nights. That sleep is never made up. Hours of sleep and rest should be regular.

Just a Bit Short

The traveling salesman was hungry as a wolf, due to an early morning dash for his train that had forced him to forego his breakfast. At noon he hurried to the dining-car and managed to obtain a seat. He called a waiter over.

"Now," he ordered, "I want oysters on the half-shell, in a hurry."

"Yessuh; right away, suh," assured the waiter, hurrying off.

Five minutes passed, and five more; still no oysters appeared. With growing impatience, he summoned the waiter.

"I ordered oysters on the half-shell. Where are they?" he demanded.

The waiter looked embarrassed. "Well, yo' see, suh," he said at length, leaning over and confidentially lowering his voice, "we're jus' a bit sho't on shells today, but yo' o'der is nex' on de list."—St. Louis Star.

THE ANDOVER TOWNSMAN

Looking Back Twenty-five Years

Prof. Arthur Cummings, principal of the Hubbardston high school, is visiting at his home in town.

Miss Ella L. Holt has started an intelligence office in connection with her store, the Metropolitan.

The employees of T. A. Holt and Co.'s store will make their annual trip by bicycle to Nahant, Sunday.

The Misses Ruth, Olive, Florence and Annie Wakefield, Nellie Berry, Elsie and May Holt are spending a week at York Beach.

The batters are up for a new store to be built by J. H. Flint on his land south of the Musgrove building. The contract has been awarded to Hardy & Cole.

Rev. J. G. Merrill, D.D., of Fisk University, Nashville, Tenn., preached at the union service in the Lawrence street church, Lawrence, last Sunday morning.

From Kearsarge village, N. H., comes the statement that Miss Mabel Kemp and Miss Edith Pratt of Boston and Miss Edith Poor of Andover are three of the most successful golfers the village can boast and spend much of their time on the links.

Miss Maude M. Cole has been spending a few days this week at Goffstown, N. H.

Prof. William H. Ryder and family have returned from a month at Pine Point, Me.

Mrs. Joshua Paine and son have returned from a month's outing at Salisbury Beach.

Miss Maude Randall, Misses Florence and Agnes Abbott and a party of friends went to Hampton Beach on Tuesday.

Mrs. Andrew McTernan, Miss Alice McTernan and Miss Blanche Cole will go to York Beach for an outing.

William Clark, clerk at J. H. Campion & Company's store, is spending a two weeks' vacation at his home in Milton, Vt.

Mrs. Minot Killam and daughter, Alice, of Haverhill, have been spending a week at the residence of T. J. Farmer on Whittier street.

William C. Coutts and daughters, Alice S. and Mary T. Coutts, have gone to New York and New Jersey where they will visit relatives.

Mrs. Alexander Lamont and daughter, Lizzie, are spending two or three weeks with Mrs. George Naylor in Peekskill, N. Y.

Mrs. E. Higgins, Misses Bertha and Grace Higgins, Miss Lila Gason, Miss Abbie Clement and little Miss Gladys Higgins spent last Friday at Salisbury Beach.

William J. Burns, the popular young tailor of Andover, is recuperating from his recent severe attack of muscular rheumatism by a two weeks' outing at Manchester-by-the-sea.

Charles H. Newman is spending a couple of months at his home in town. He has been employed recently in operating the X-ray machine at the Providence hospital, Providence, R. I.

Mrs. William Barnett is visiting her daughter, Mrs. Clement at Chester, N. H.

Mrs. Maria Stork and Miss Amy Stork have returned from an outing at Rye Beach.

Miss Aikin who has been stopping at the residence of George Ripley has returned to Norwich, Conn.

Mrs. Evelyn Hardy of Maple avenue, is the guest of Miss Mary Caldwell at the Winkley cottage, Salisbury Beach.

Mr. and Mrs. A. S. Manning and Miss Arline Manning have been spending the past two weeks at Prout's Neck, Maine.

Ernest Edmonds of Saugus Center has been spending a few days at the residence of William Findlay on Bartlett street.

Charles B. Jenkins, bookkeeper at T. A. Holt & Company's store, with his wife and family is enjoying an outing at Salem.

Prof. George T. Eaton, Mrs. Eaton and family will start for the White mountains by bicycle next Monday. They are going by way of North Woodstock.

Walter I. Morse, managing clerk at Henry McLawlin's hardware store, has returned from Portland, Maine, where he has been spending his vacation.

Mrs. Nathaniel Cutler, who was Miss Lilla A. Abbott, called upon friends in town Wednesday. Mr. Cutler is now principal of the Norwood high school.

The tax rate for the year is announced as \$15.50. (The Editor comments: As the figures come in from the towns around us, it is found that more have a higher than a lower rate, and by comparison we ought really to be quite happy. But though this is true, the fact remains that we are an awfully extravagant people, we of the sewers and lights, etc., and that we must go slow for the next few years to pay for our past extravagances.)

a \$1000 are M. T. Stevens \$2,735.75; estate of J. Putnam Bradley, \$2,542.80; Phillips academy, \$2,851.23; estate of John Dove, \$1,550; J. W. Barnard, \$1,191.55.

A more perfect day for the annual picnic of the Free Church Sunday school at Canobie Lake could not have been found. Everything at the grove had been secured free to the crowd, and the picnickers soon made themselves at home and the bowling alleys, swings and boats were soon monopolized. Many of the younger boys indulged in a dip in the tempting waters of the lake. Baseball attracted others and a game was soon in progress between nine captains by Gordon May and Joe Soutar. Victory rested with neither for after the regular nine innings the score was found to be a tie at 12 runs. The bracing air of New Hampshire had a decided effect on the appetites of the crowd and at noon the baskets were brought forth and everybody seemed to know just what to do with the contents. It was a refreshing, appetizing sight. A baseball game between Mr. Wilson's class and the rest of the Sunday school gave many an opportunity for seeing baseball as it should not be, but is too many times played. The rest of the Sunday school team was composed of younger players and in order to encourage them in the national pastime, Mr. Wilson's class very generously gave them the game 17 to 8. Mr. Hitchcock as umpire officiated very creditably under the distressing circumstances. The races followed the ball game. In the 75-yard dash for boys, Howard Bell won the first heat and John MacDonald the second. In the final, the latter conceded five yards start, but won out easily by about that distance. The boat race for mixed couples was not close enough to be exciting, Miss Alice Coutts and Alex Ritchie walking (or rowing) away from their competitors. Two other boats entered. The committee in charge of the picnic consisted of John C. Angus, chairman, Alex. Dundas, Mrs. W. S. Rhodes, Miss Annie Smart.

Clarence Moor was badly poisoned by ivy or dogwood at the Free church picnic. Dr. J. P. Torrey has just purchased a new X-ray machine which he expects to find very useful in his practice in examining broken bones, foreign substances, diseases of the lungs, etc. The machine is a Ziegler Ruhmkorff coil with a battery of six cells which sends an eight-inch spark through the Crooks tube.

Miss Cecelia Kydd of the Farnham school, North Andover, has resigned to accept a position in the public schools of Andover.

When Frye Village Booms

And a boom is just what seems to be the prospect for this rather neglected and somewhat run down appearing section of beautiful Andover. It bids fair to become the cleanest portion of the old burg; a spot where uncleanly, wearied, rheumatic, worn out humanity may repair and come away, their minds refreshed, their bodies clean and healthy, their nerves in a normal state once more.

Water, heat and steam properly manipulated are to be agents which will bring about these wonderful results and make Frye Village into the Mecca of all those above-mentioned individuals. The village will become well known by those who never before had heard of its existence. They will travel miles to test the excellence and participate in the delights of Paul Hannegan's Turkish baths and swimming tanks, for that is what he of the Lithia Water fame has commenced the construction of on the Hussey property, recently purchased from the heirs at Frye village.

Though still somewhat vague, the plans for his Turkish bath will be similar to those under the Tremont theatre on Tremont street, Boston, only on an improved and larger scale. At Boston, there are hot rooms, steam rooms, lounging rooms, shower-baths and closets for disrobing. The Frye Village bath will have all these things and more. They are to be situated in a stone building, the probable dimensions of which will be about 75x100 feet. The interior walls and floors will be of marble and tiles. In front, on Main street will be a pretty and attractive waterfall.

Besides the bath, Mr. Hannegan is planning for swimming tanks where instruction in swimming may be given separately to both sexes. Each tank will be about 25x100 feet in dimensions, made with Portland cement and glazed bricks such as are used in the Boston subway. These tanks will also be in a stone building and probably under a separate cover from the Turkish bath.

The baths will be easily reached by electric cars from Andover, Lawrence, Haverhill, Reading, and neighboring towns.

A few simple rules governing the proper use of gas cooking appliances and utensils will save gas and give better results, declares Ethel R. Peyer in House and Garden.

"If it were ever necessary for cleanliness in any apparatus it is necessary in the case of the gas range and gas machinery of any kind. The effect of clean burners on the reduction of your gas bills, is tremendous!"

"When they get dirty, boil them in a strong solution of washing soda or lye, dissolved in water. It is well to have a regular day for this baptism and keep religiously to it. Rinse them thoroughly with clean water and do not forget to watch the hands in the process, as strong alkali bothers the skin."

"The ovens, too, must be kept clean and free from rust and souvenirs of past feasts. Go over them every week with a non-smelly oil, free from salt or other foreign matter. For enemy aliens the oven walls will make havoc of cookery. Leave the oven door open after every baking, etc., for about 30 minutes to dispel past culinary reminders and to keep the oven from rusting."

"The proper size for utensils has much to do with low costs, the ease, swiftness and rapidity of cookery. The utensil should always be larger than the circumference of your gas burners. In this way the heat does not escape into the atmosphere but is leveled at the utensil itself."

"Put out the gas before removing the utensil and again you will save gas bills."

"Aluminum, glass or tin, will give quicker cookery results in baking. Whereas the enamels are excellent for surface burner cookery, they are not so quick in the oven."

"The clever, thrifty-in-one utensil, makes it possible to cook nearly a whole meal over one burner, and the steam cooker gives you one meal cooked to perfection over one burner. So you see that cooking utensils mean a tremendous saving of waste. But, really, it's the mind, after all, that saves you more money than everything together, if you will but use it."

More than 350 children are living on canal boats in the United States. This interferes with the children's schooling as the boating season on the canals ranges from seven to nine months in length.

20th Century Cream Bread

EVERY normal human being wants a GOOD slice of bread. They will never be satisfied with less. A wholesome, nutritious loaf of bread, golden brown crust, and light fluffy texture—this is the most deeply planted ideal in the judgement of GOOD bread.

TO that instinctive want, 20th CENTURY CREAM BREAD, the FINEST bread procurable, makes an irresistible appeal. It satisfies every desire for QUALITY, meets every requirement. It goes farther, for it offers a wholesome flavor that CAN NOT BE DUPLICATED anywhere else than in this truly HOME-MADE loaf of bread.

IMPORTANT—Only by asking BY NAME for 20TH CENTURY CREAM BREAD can your desire for the QUALITY loaf of bread be fulfilled. Your grocer will appreciate your ordering 20TH CENTURY CREAM BREAD, because he knows it means a satisfied customer.

Always Order 20th Century Cream Bread by Name!

Fair Enough

The goose had been carved and everybody had tasted it. It was excellent. The negro minister, who was the guest of honor, could not restrain his enthusiasm. "Dat's as fine a goose as I ever set ma teeth in, Brudder Williams," he said to his host. "Whar did you get such a fine goose?" "Well, now, parson," replied the carver of the goose, exhibiting great dignity and reluctance, "When you preaches a speshul good sermon I never axes you what you got it. I hopes you will show de same consideration."—Lawyer and Banker.

Retrieving his tobacco in excellent condition after it had been cached for ten years is the experience of a Canadian trapper who makes the wilds of Northern Manitoba his hunting ground. In 1913 he made a cache at Copper Lake, which is 72 miles north of The Pas. In this cache he placed three pounds of tobacco in six half-pound tins. Returning to Copper Lake early in the present year he found that the cached tobacco was as good as ever, although it had been there about ten years.

The World's Best Tire Has Come to Andover

DAYTON Thorobred Cords

In Andover. We have always tried to give the finest possible service in every feature of our business. In offering our friends and public Dayton Thorobreds we know that we're living up to our ideal. It is our business to know what tires will or will not do. Our reputation, present business and future prospects depend upon giving you the best possible day for your money. Dayton Thorobred Extra-Ply Cords are just that. The pioneer of all low air pressure tires, they give COMFORT, of course. But they also give unequalled, long, trouble-free mileage—ECONOMY. So do Dayton Extra-Ply Balloons. Either type offers the finest possible example of the economy of quality. If you can see the wisdom of Dayton's advice—"Figure the cost at the Finish"—come in, or call us on the phone, and let us tell you more about these dominant quality tires. "RUSH SERVICE"

ESSEX COUNTY AGRICULTURAL SCHOOL NOTES

Grange Field Day

The Chebacco Pomona summer field day meeting will be held at the school on Wednesday, August 19. The general committee of which E. K. Burnham of Gloucester is chairman, has prepared an all-day program which will interest young and old alike. The program starts at 10.30 a.m. The usual athletic events, agricultural and home-making judging contests will be run off. At 12.30 basket lunch will be enjoyed and refreshments will be for sale. At 2.30 the speaking program will begin. Mr. Felker, Commissioner of Agriculture in New Hampshire, Hon. William J. McGinness, William H. Howard, and Bertram Mowrey will be present to address the Grangers. The usual children's entertainment will be in charge of Mrs. Clara Sanborn of Middleton and Mrs. Mary Hooper of Danvers.

State prizes will be offered to the boy and girl making the greatest number of points in the athletic events. Cash prizes will be offered in the agricultural and home-making judging contests.

The annual field day is financed by the sale of buttons and every Granger should purchase one of these at least and attend the field day. In the past there has been some misunderstanding as to whether or not only members of Pomona could attend, but it should be clearly understood that any Granger may attend the field day.

The general committee announces that the evening will be given over to dancing.

Andover Prize Winners at Junior Field Day

The 4-H Club field day was a great success this year. About 350 attended the event, nearly every town in the county sending representatives.

The program included agricultural and home economics contests, movies, songs, and sports. The club work contests included the following events:

Cloth Identification—First, Mary Kachadorian, Methuen; second, Rosalie Deschamps, Beverly; third, Sophie Latink, Beverly.
Bread Judging—First, Helen Burke, Beverly; second, Marie Rosso, Beverly; third, Joseph Graham, Beverly.
Canning Judging—First, Ida Fasullo, Haverhill; second, Myrtle Marhan, Haverhill; third, Mary Kachadorian, Methuen.
Egg Judging—First, Horace Shute, West Newbury; second, Chester Dunn, Rowley; third, Frank Chadwick, Haverhill.
Cattle Judging—First, Elmer Widen, Beverly; second, Frank Chadwick, Haverhill; third, Robert McKinney, Newburyport.
Flower Identification—First, Robert Keirstead, Andover; second, Elizabeth Blanchard, Andover; third, Marie Rosso, Beverly.
Vegetable Judging—First, Robert Bubier, Rowley; second, Irene Langlois, Haverhill; third, Bruno Capola, Haverhill.

A two-gun, hammer-fanning Indian fighter and frontier scout, who had in his lifetime killed eight white bandits and 20 Indians, was crushed to death in an elevator shaft at the Omaha World Herald plant where he was employed as night watchman. In 1892, in the battle of Wounded Knee, South Dakota, he killed 11 Indians with 12 shots, using both guns, hammer-fanning. He was chief scoutmaster for General Phil Sheridan for six years and was never beaten on the draw.

Make New Rules For Auto Driving

Two new regulations for the operation of automobiles have been drawn up by Registrar of Motor Vehicles Frank A. Goodwin and the public works department. They went into effect August 1, and in substance, one prohibits the use of horns attached to engine, while the other requires drivers whose cars are not equipped with windshield cleaners to keep the windshield open when weather conditions are such as to interfere with visibility of the road.

In announcing the new regulations, Mr. Goodwin issued a statement explaining them. It is as follows: "Although under the provisions of law, the old highway commission, and the registrar of motor vehicles as its successor, with the approval of the commissioners of the department of public works, have had for years, the right to make rules and regulations concerning the operation of motor vehicles, the only rules and regulations that have been made were those concerning headlights.

"On July 13, the registrar prepared a regulation preventing the use of the so-called Buell whistles, and also another making it necessary for a driver of a motor vehicle, when weather conditions interfere with visibility, either to have his car equipped with a windshield cleaner or keep the windshield open. These regulations were approved on July 14, by the commissioners, and filed with the secretary of state as required by law on July 15 and will go into effect on August 1, 1925.

"The reason given for the passage of regulation relative to the whistle is that hundreds of complaints have been coming to the office of the loud and unreasonable manner in which some operators were using these whistles. So far as the obscured windshields are concerned, last year there were 14 persons killed and many injured because of the fact that drivers, during rainy weather, were operating with no windshield cleaners, and the windshields closed, thereby making it impossible to see clearly the road ahead.

The penalty for the violation of these rules and regulations is provided for in section 20 of chapter 90 imposing a fine of not less than \$25 for a first offence, nor less than \$25 nor more than \$50 for a second offence, and not less than \$50 nor more than \$100 for subsequent offences. In addition to these penalties, the registrar will revoke registrations in cases of persistent failure to obey these regulations.

"The regulations in full are as follows: "Section 1. No bell, horn or other means of signaling as required by section seven of chapter 90 of the General Laws as amended shall be operated by means of compressed gas from the engine or its exhaust.

"Section 2. Every motor vehicle operated in or on any way shall be so constructed that the operator has a clear view ahead at all times, and when weather conditions interfere with visibility, the windshield shall be opened or equipped with a windshield cleaner."

A summary of the changes in the automobile laws has been sent to police and court officials by Registrar Goodwin. The changes were made by this year's Legislature and recently took effect, or are about to go into operation. The summary, in the form of a letter, is a continuance of the registrar's campaign to have the officials throughout the state fully acquainted with the automobile law and to have them rigidly enforce it.

The changes discussed by Goodwin are briefly as follows:

Operating after license has been revoked, or after license has expired, now punishable. Effective June 30.

Penalty for person who obtains one if he takes his license examination for him. Effective April 30.

Penalty for changing engine or maker's number of car. Effective July 10.

Carth not required on renewal license applications. Effective July 29.

Drunken driver bill; compulsory jail sentences for second convictions. Effective April 30.

No longer necessary to sound horn at all street intersections. Effective July 30.

Compulsory liability automobile insurance. Not effective until 1927.

Causes of Motor Accidents

The State of New York probably has the most thoroughly analyzed motor accident reports of any state in the country, says the A. L. A. From these reports a very comprehensive idea may be obtained of how the general run of motor accidents take place in the rest of the nation.

During May there were 4073 accidents reported of which 136 were fatal, and 42 of these deaths occurred on Sundays. This fact is not conclusive that Sunday is the most dangerous day to venture upon the highways, since these records show that for the first four months of this year, Thursday gave an average of 32 deaths which tops all the other days of the week. This fact is surprising because Sunday and Saturday have heretofore been considered days on which more fatalities happened than any of the other days of the week, but as these months do not represent the peak of driving, it will be interesting to follow this through the whole year and learn whether New York State is peculiar in this respect. From 4 P. M. till 6 P. M. still maintains the right to be called

the danger hours of the day, and the inattentive driver the most dangerous of all drivers. In May he rolled up 86 of New York's 136 deaths. This should be a warning to all one arm drivers—to gossipers, to those who are constantly gazing about and to those who still consider driving an auto anything but a highly dangerous undertaking to which undivided attention must be given.

Ninety-three of the total deaths for May resulted from collisions between autos and pedestrians and 40 of them were between the ages of five and fourteen, showing that children's deaths average about 40 per cent of the total.

As to the place where most of the accidents happened, the straight, level roadway heads the list with 210 per cent, more than half of all the accidents, and 82 of the fatalities, which is two-thirds of all deaths, and as it is under such conditions that speed is increased we look for speed as the cause; but only four deaths are reported for exceeding the speed limit which is contrary to all previous statistics in other States.

One of the astonishing results of these New York statistics for May is the fact that more pedestrians were killed at crossings than were killed in crossing the streets at other points, the figures being 18 at crossings and 12 between crossings, while 1400 were injured and 46 killed while either walking, running or playing in the streets, most of these probably being children. Up to June 1 there were 47 killed at street crossings and 25 at other points, while 113 met death playing, walking or running upon the streets.

During May male drivers of cars were involved in 135 deaths and females in seven, while intoxicated drivers were responsible for the deaths of five persons. Those drivers who had two years or more experience were involved in two-thirds of all deaths and three-fourths of all accidents, while those 25 years old and over caused more than half the deaths and three-fourths of the accidents.

The drivers with only experience up to two years were involved in but one-sixth of the fatal and one-fifth of the non-fatal accidents. Taxis killed 16, motorcyclists 6, commercial cars 39, and passenger cars 79, and not stated 2.

Cottage Cheese and Whey Salads

Cottage cheese is an economical substitute for meat and a way to utilize what might have soured on the back door step when you were away over the week-end or in the ice chest when the ice ran out. To make cottage cheese satisfactorily, the milk must be clabbered thoroughly, according to Miss Lucile W. Reynolds, State Home Demonstration Agent of the Massachusetts Agricultural College. Set the pan of clabbered milk in a pan of hot water and heat it slowly until the curd separates from the whey. Don't let it get over 94 degrees warm, or the curd will be tough. When the curd is entirely separated, turn it into a strainer lined with cheesecloth wrung out of hot water. Let it drain, and save the whey to use in cooking. Turn the curd into a bowl, crush it with a fork and add salt and other seasoning to suit your family's taste.

The whey can be used in a whey-mint salad. For that you will need:
1-2 tablespoons of gelatin
1-2 cup sugar
1-2 cup finely chopped fresh mint
2 tablespoons lemon juice or vinegar
2 cups of whey

Soak the gelatin in a quarter of a cup of cold water and dissolve it by setting the cup in a pan of hot water. Strain the whey through a cheesecloth and add the gelatin, sugar, mint, and finally the acid. Pour the mixture into molds and let them chill. If desired, the mixture may be tinted green with any vegetable coloring before it is molded. Serve it with salad dressing.

A when salad dressing will prove a tasty form in which to use the whey after making the cottage cheese. Take

1 cup of whey
1-3 cup of vinegar
1-3 cup of sugar
1 teaspoon mustard
1-2 teaspoon of salt
1 tablespoon of flour
2 eggs yolk of two eggs, and
2 tablespoons of oil or butter

Heat the whey and the vinegar. Mix the dry ingredients thoroughly and add them to the hot liquid. Cool the mixture until it is thick and clear, and add the beaten egg yolk. Cook this thoroughly and, after removing it from the fire, finally add the salad oil or butter.

A certain landlady always collected her own rents to save the expense of an agent. She was always fashionably dressed, and on account of her meanness was not at all popular with her tenants.

One morning while making her round, she found one man in a very discontented frame of mind. He was annoyed to think that she had raised the rent such a lot without doing any repairs to the house, which was in a very bad state.

Noticing this, she decided to forestall his complaints by making some herself. She reeled off a lot, and then concluded with: "And this kitchen, Mr. Potter, is in a terrible condition."

"Yes, it is," replied Mr. Potter, "and you'd look the same if you hadn't had any paint on you for six years."

Double Tragedy

A very homely Irishman had lost his job and was having a hard time finding another, when an acquaintance met him one day. "Hello, Pat. How are ye?" he said. "Mighty bad," was Pat's reply. "Sure 'tis starvation that's starin' me in the face." "Is that so?" the other rejoined. "Sure it can't be very pleasant for ayther av yez."—St. Louis Star.

One-third of the earnings of the German husband must be given to the wife to maintain the family table. That is the German law. This one-third income is not to meet wages of servants or rent but merely to cover the expense of keeping up the table.

Ravaging Rodents

“Rats have destroyed more people than all the wars of history. They cost the United States \$200,000,000 annually and keep 200,000 people busy raising their food supply and replacing the property which they destroy,” said a rat exterminator in Andover last year, soon after he had wiped out these animals on Cape Cod. Such a statement need not surprise us, for it is well known that the damage they do is tremendous. Besides the actual property damage, rats are a nuisance because they are filthy and often spread disease. They have been known to attack children.

Rats have declared war on man. Those who have observed these animals closely tell us that they are almost unbelievably ingenious in their methods. They have studied man's ways and plans of defense and have accordingly mapped out a careful line of attack against him. In carrying out their offensive the rats display amazing caution and cooperation. They work together as a unit, having regular spies, guards, messengers, and the like. They have even been known to pass eggs from a suspended container to the floor along a living chain of rats, the forelegs of one being clasped to the hind legs of the one above it. The resourcefulness of these pests is such that we are almost helpless wherever they exist. They can usually outwit us and are either indifferent or on the defensive when they are infesting a region where we live.

Why not declare war on the rats? Why not wipe them out? There is no question but that many of them thrive joyously here in Andover, wondering perhaps that we should treat them as welcome guests. Because of them this town suffers greatly in property, comfort and health. There are various methods of getting rid of them if we but make up our minds to do so.

Terriers and cats are helpful in ridding one's home of these rodents. More effective are spring traps, with or without baited trigger. Rats are very curious and will investigate an unbaited trap even if covered only with a light piece of tissue paper. This is especially

true if the trap has a rat smell but no human scent. Poisons of various sorts are used with good results. Barium carbonate is one of the best of these, being harmless to children. Plaster of Paris mixed with ground flaxseed or a similar dry food will also kill the rats. These methods can be used in any household.

More effective than scattered individual efforts would be an organized anti-rat campaign. The Townsman ventures to suggest that this town should go so far as to employ the services of a professional exterminator to rid the town of these parasites. It would undoubtedly be highly beneficial to the residents of Andover if this community should entirely exterminate these destructive and disease carrying pests.

Editorial Cinder

There is inconvenience to the players and danger to the children when little boys scamper around as freely as they usually do at our baseball games; inconvenience at the game, because the boys frequently get in the way of a player trying to make a catch, and danger to the children because they are in a position to get hit by the ball. These little fellows, not satisfied to play along the sidelines, even run about in the outfield. Wednesday evening throughout the game at the Playstead four little tots romped about during the entire game some twenty feet behind the catcher. It is only good fortune that saved one of them from being struck and seriously hurt by a swift-batted ball. Here again it is a problem mainly for the parents who have in charge the welfare of their offspring. Although ordinarily an excellent and safe place to play, the Playstead is far from safe during a ball game. But if the parents don't care particularly where their youngsters are, then the Police department should station an officer to see that the baseball men are not interfered with by the boys and that the boys—despite their elders—are protected from being hurt by some stray ball.

Birthday and Wedding Anniversaries Observed

Mrs. John Hutchins of Elm street, who is staying at Biddford Pines with her daughter, Mrs. Clare Norton, celebrated her eightieth birthday last week. The event took the form of a dinner, at the conclusion of which Mrs. Hutchins was the recipient of many tokens of love and esteem from her children.

Those present were Mr. and Mrs. Walter L. Clark and family, Mr. and Mrs. Clare W. Norton and family and Mr. and Mrs. Edwin G. Booth and family and Ruth Hutchins. The affair was made of further pleasure by the very unexpected presentation to Mr. and Mrs. E. G. Booth of a purse of money in recognition of their twenty-fifth wedding anniversary.

Work on New Auditorium

Preliminary work on the new auditorium at Phillips academy is progressing rapidly. A gang of workmen have erected the battens which give an idea of the immense size of the building which will face onto the quadrangle formed by the new recreation hall, and Pearson hall. The rear wall overlooks the town and the building will be plainly visible from Lawrence and the surrounding territory.

The new building will cover the whole area from the northerly walk at the new recreation hall to a point well toward Chapel avenue, and beyond the rear of the chapel.

It has been necessary to cut down a number of trees and workmen this week have moved the garage and barn attached to the V. D. Harrington house owned by the academy to their new locations at the rear of the Phillips Inn. The Harrington house will eventually be moved to another location to make room for the approaches to the new auditorium. It will be the biggest structure on Andover hill when completed.

Outing of Boy Scouts

The Boy Scouts of the Free church spent the last week-end at Canobie Lake with great enjoyment. Scout Master John W. Cameron had charge of them, and was assisted by Alfred Booth, Alexander P. Black and Harry Meadowcroft.

Mr. and Mrs. Fred Adams gave them the use of a cottage at the lake and T. H. Lane loaned them his truck for transportation. The boys met every Friday night at 7.30 o'clock at the church, and are having enthusiastic gatherings. Any Andover boys of the right age would be welcomed to membership.

Observes Ninety-Sixth Birthday

Happy in the possession of many friends and relatives, in the continued blessings of good health, and the use of her faculties, Mrs. Elizabeth G. Kimball celebrated her ninety-sixth birthday last Friday at the home of one of her daughters, Mrs. Alice Osgood of Buxton. Fifty friends and relatives called on her during the day.

Mrs. Kimball, although not a native of Andover, is known in this town. A brother, James Gray of Saco, Maine, who is eighty years of age, was also present. Others of her kin who made the journey to Buxton to pay their respects and extend their good wishes, were her grandsons, Ralph Kimball of New York, Leland Kimball of Baltimore, Frank Kimball of Danvers, and John and Arthur Jenkins of Andover; her only granddaughter, Mrs. Roy Turner of North Reading; and two nephews, Fred Chandler of New York and Russell Chandler of Waban, sons of her sister, the late Mrs. John Chandler of Worcester. Of her eleven great-grandchildren seven were present at the celebration. Her sister, Mrs. John Faulkner, was unable to join in the family reunion.

Mrs. Kimball retains her sight and hearing to a remarkable degree, is able to help about the house, reads the daily papers and entertains herself with solitaire and picture puzzles. She has the best wishes of her many Andover friends for her continued health and happiness.

Struck by Methuen Automobile

Patrick Doherty of 16B Essex street was struck by an automobile in Andover square at 12.55 Tuesday night and received lacerations and contusions which were dressed by Dr. J. J. Daley. The automobile was driven by Harold Kitchen of Methuen.

Donations to Lawrence Hospital

Among the donations to the Lawrence General hospital during July were fifteen children's bibs, given by the Courteous Circle of King's Daughters, through Mrs. C. J. Francis. A legacy from Elizabeth M. B. Downs late of High street of \$500 was received by the hospital.

Wedding

TUCKER—CUSHMAN

Announcement has been received of the marriage at Los Angeles, Cal., on August 4, of Mrs. Nellie M. Cushman and Clifford M. Tucker. The marriage took place in the Colorado Street Methodist church, with Rev. W. Carleton Wood as the officiating clergyman.

Mr. and Mrs. Tucker will reside at 170 Marion avenue, Pasadena, California. Mrs. Tucker has for several years made her home in Andover with her daughter, Mrs. J. H. Higginson, of Chestnut street.

The English Tea and the Tart Woman

The Tart Lady is a horrible example of how not to behave at a church supper. But on the other hand, she was unconsciously a splendid advertisement of how much one can eat at an English Tea planned by the supper committee of the Country Fair without receiving even one angry look!

The Tart Lady came early to the English Tea which was served last year, and stayed late. If she had been an Andover lady (we use the past tense feeling sure that after all she consumed she was not long for this earth), we would not dare mention her at all, but then, Andover ladies behave mannerly at table, like the child in Stevenson's poem.

Fortunately she was an unknown quantity. The trouble with the Tart Lady was that even before she had tasted a single piece of good English-American cold roast beef she leaned over and helped herself to at least five of the richest and prettiest tarts. Her plate looked exactly like a game of “ring around a rosy.” Evidently her first thought was safety in numbers!

We charitably mourn her loss with one half of our mind, while with the other we realize that this year there'll be five extra tarts for you.

The English Tea on September 16, in the Parish House, will be better than last year's if it's possible, with plenty for all. But take warning by the Tart Lady.

Carnival Plans Progressing

Plans for the big carnival by Andover Council, K. of C., and Court St. Monica, C. D. of A., are fast maturing. A meeting of the general committee was held Monday night in the Knights hall and reports indicated successful progress.

The affair will be held on the playstead on Labor Day, Sept. 7, and on Tuesday and Wednesday following. There will be many attractions and the major prize list contains many valuable articles.

The big event this week is the whist party tonight in K. of C. hall. Miss Helen Hickey is in charge and she has secured many valuable prizes. It is hoped there will be a large attendance.

Miscellaneous Shower

Miss Delia Fahey of Main street was the guest of honor at a pretty miscellaneous shower held at the home of Mrs. Joseph Kelley in North Andover recently. She received many lovely gifts in honor of her coming marriage.

During the evening a musical program was carried out and games were played. Refreshments were served by the hostess.

Among those present were Miss Fahey, Katherine McCabe, Margaret Mullen, Josephine Kelley, Catherine Cain, Julia Fahey, Margaret Kelley, Katherine Sheehy, Agnes Munroe, Mary Garvey, Helen Kelley, Mrs. John Garvey, Jr., Mrs. Joseph Kelley, Mrs. Michael Cain, Mrs. John McCabe, Mrs. Dennis Hynes.

Overseers Outing Saturday

The annual outing of the Overseers of the Smith and Dove manufacturing company will be held Saturday at Centennial Grove, Essex.

Autos will convey the party and dinner will be served at the grounds. A long program of sports has been arranged and a baseball game will be a feature.

"Hillside" House on Shawshen Road Reopened

The “Hillside” house, formerly operated by the Smith and Dove manufacturing company for its employees, is again reopened after a closed period of over two months. The house is under new management and is to be known in the future as “Andover's New Home-like Hotel” with all the modern conveniences installed for the benefit of its patrons. Mrs. Cora L. Shinkleton is manager and under her direction the house should prosper as she has had a wealth of experience as manager of the United Fruit Company Cafeteria in Panama.

Shower and tub baths are now in use at the house together with recreation rooms and bowling alleys. Special week day and Sunday dinners will be served.

Police Court Notes

At a session of police court held last Saturday, William H. Taylor and Edward McKenna were found guilty of drunkenness and each was fined \$5.00.

Five violators of the automobile laws paid the penalty of their lawlessness on Monday as follows:

Arthur R. Stone, 7 Newton street, Malden, found guilty of speeding, \$5.00.

James C. Peters of Salem Depot, N. H., \$5.00.

David Kaplan, 11 Custer street, Lawrence, found guilty of speeding, \$10.00.

Samuel Isenbarg, Methuen, \$10.00.

David E. Foley, 633 Broadway, Somerville, \$5.00.

Huge Saurians' Forms Found at Logging Camp

Hoquiam, Wash.—Surpassing the discovery of the dinosaur skull and its identification by University of Washington scientists recently, J. H. Geoghegan of Hoquiam has brought to light fossils and massive forms of saurians on an expedition to the hills adjacent to Saginaw Logging company's camp No. 12.

Several forms visible on the sides of a grade cut for the logging company's railroad were easily identified by Geoghegan. Each measured close to 100 feet in length. Parts of the creature's limbs and all of the ribs were visible, and samples identified as teeth and a rib were brought here.

“Always At Your Call”

We Win by Comparison

We take it that what a home-maker wants to know about a laundry service is—Is it really as easy on clothes as home work?—Do the clothes look as well as when done at home?—Is the cost much more than home or washerwoman work?

Take our Better wet wash service, if you could see our mode of washing we know you'd agree with us that a washboard and wringer must necessarily be harder on clothes than our way.

No work done at home can compare with ours in looks—it just can't be done.

You figure honestly and you'll find that home work costs you more and washwoman's work costs you a great deal more at our present prices.

But what is the use for us to say these things when a trial will give you the whole story. Gays work with Ivory soap can't be beat—we're still receiving calls on Lawrence 22640.

Seven girls who have especially distinguished themselves by their high ideals and spirit of service during their two weeks in camp were named for the highest honor conferred, as members of the loyalty group.
Loyalty group—Marion Burgess, Deborah Gilbert, Louise Hook, Myra Rawnsley, Marguerite Seymour, Dorothy Dewar, Laura Moulton.

Nature prizes and honorable mention:
First year—First, Josephine Fisher; second, Deborah Gilbert; honorable mention, Florence Dunn, Barbara Hoffman, Myra Rawnsley.
Second and third year—First, Eleanor Sessler; second, Marguerite Seymour; honorable mention, Muriel Wharton.
The younger girls leave for their homes today, the older girls arriving on Saturday.

Hardy and Ross Defeat Carlisle

Hardy and Ross downed the Carlisle A. C. Monday night on the Playstead 13 to 3 in an uninteresting contest. Owing to a very late start only six innings were played, the last in semi-darkness.
The Carlisles were short one man and Ralph Murphy of the Punched high team filled in. Swenson, captain of Punched High, started in the box, but after Hardy and Ross scored four in the opener, Manager Porter saved him and gave Davidson and Martel a chance to show their wares. The former was wild and three passes in the third and a single netted two runs. Two singles and an error by Martel gave Carlisle its only run. Martel held them scoreless in the next two frames and allowed only one hit.
Hardy and Ross bombarded Judge and Flockerzi, who went on the mound in the fifth with one down and two runs over. Twelve went to bat and 8 singles, a double, and two wild pitches netted 8 runs. Swenson who batted twice, hit safely both times. He and Russell Blunt led with the stick. Paul Dyer got a couple of two-baggers, scoring 4 runs.
Donahue of the Carlisles pulled off a great catch in the third, off Martel, when he raced up the steep banking back of third base for a high foul fly. Judge led in the attack with two clean singles.

The summary:
HARDY & ROSS
Souter, s.s. 4 2 1 2 2 0
Wright, 2b. 3 2 1 2 2 0
Blunt, c. 4 1 3 9 2 1

Two-base hits: Dyer 2. Stolen bases: Blunt, White 2, Flockerzi, Judge. Double plays: Souter to Wright to Dyer. First base on balls off Swenson, off Davidson 3, off Martel, off Judge 3. Struck out by Swenson 3; by Davidson 4, by Martel 2, by Judge 3, by Flockerzi 2. Wild pitches: Judge 2. Time: 1h. 15m. Umpire: Cussen.

Silver Nine Winners

The Silver nine defeated the Lucky Strikes on the Playstead Monday, 7 to 3. Bissett of the Silver nine pitched fine brand of ball. The hitting of Gus Winters featured the game, piling out long two-baggers.
The lineup of the Silver nine: J. Winters, c.; A. Bissett, p.; H. Gordon, 1b.; A. Jack, 2b.; W. Skea, 3b.; C. Porter, s.s.; Gus Winters, l.f.; D. Bissett, c.f.; F. Winters, r.f.

Old Tyer Rubber Company Building for Sale

The factory of the Tyer Rubber company situated on Main street just below the square is offered for sale by the owners. Since the present directors have had charge the new factory on Railroad street has been used for the manufacture of rubber shoes and other goods which have been added to the stock of the company and the building on Main street has not been needed.

Obsequies

Funeral services were held last Friday afternoon at two o'clock for Albert Campbell, seven-year-old child, who was instantly killed Wednesday, August 5, when he exploded a dynamite cap that he had found in a stone wall near his home on Abbot street. Services were conducted at the late home by Rev. Frank R. Shipman, a former pastor of the South church. Burial was in the family lot in Spring Grove cemetery.

Births

July 25, 1925, at Sunny Crest, Lemon Grove, California, a daughter, Susanne, to Lieut. Comdr. H. E. Spruance (Medical Corps U. S. N., retired, and Mrs. Spruance (Miss Elsie Whipple).
August 3, 1925, a son to Mr. and Mrs. Garfield Chase of 13 Canterbury street.
August 8, 1925, a daughter, Dorothy Ruth, to Mr. and Mrs. Joseph Quinn of Marland street, Ballardvale.
August 10, 1925, a daughter to Mr. and Mrs. Harold S. Livingston of Abbot street.

LOCAL NEWS NOTES

Arthur Jackson of the Ames Butter store is having his annual vacation.

Miss Caroline Abbott of Central street is spending two weeks at Martha's Vineyard.

Mr. and Mrs. Joshua Paine of Washington avenue, are enjoying a vacation at Eastham on the Cape.

Mrs. Annie McIntosh and Mrs. M. B. Mulligan will spend the week-end at Lake Winnepesaukee.

Percy D. Crosby, janitor at the Central schools, and son, Robert are spending the week at Wolfeboro, N. H.

Loren Taylor of Washington avenue has entered the employ of the H. P. Hood company at their Andover store.

Batters are up for a bungalow to be built at the corner of Carmel road and Walnut avenue by J. Lewis of Lawrence.

Miss Ruth May who is studying to be a nurse at the Massachusetts Homeopathic hospital is having a week's vacation.

Miss Ethel Hitchcock of the Purchasing department of the Phillips Academy office will have the next two weeks for her vacation.

Miss Anne McNally of High street and Mrs. J. McNally of Maple avenue, are enjoying a vacation of two weeks at Hampton Beach.

Mr. and Mrs. J. Leverett White who have been at Lake Champlain for their vacation, returned to their home on Salem street.

Mr. and Mrs. Robert Claxton of New York have been spending the week with Mr. and Mrs. Winslow Knowles of Punched High.

Rev. William G. Poor, a former Andover man, will preach at the Free church Sunday morning. The music will be by the choir quartet.

Mr. and Mrs. H. W. Barnard and son, Stanley, are registered at the Wentworth Hotel, Portsmouth, N. H., for the month of August.

Mrs. Anna Norton of East Limington, Maine, is visiting Mrs. Ada M. Pitman of Whittier street.

Mr. and Mrs. Robert L. Morrison of Detroit, Mich., who have been spending a few days with relatives on Maple avenue are at Husetop, Ipswich Neck, for a several weeks' visit.

Miss Janette Wiley who has been spending several months in Jackson, N. H., has returned to her home with her sister, Mrs. Ada M. Pitman of Whittier street.

Mr. and Mrs. David S. Lindsay of Summer street and Mr. and Mrs. Roy W. Lindsay of Buffalo, N. Y., are spending two weeks at Wells Beach, Maine.

The Hamilton Emery & Corundum Company of Chester, Mass., are increasing their plant by the erection of a building 100x40. Frederick H. Jones if this town is treasurer of this company.

Miss Polly Francis of Central street, who is visiting her sister in Baltimore, spent two weeks in camp at Annapolis. She is now visiting at a military and aviation post at Langley field, Virginia.

Mr. and Mrs. C. R. Livingston and son, Mr. and Mrs. W. J. Henderson, Mrs. Viola Burton, Ellen Burton, and Robert Henderson are on an automobile trip to Montreal and other parts of Canada.

Miss Mary Elizabeth Alley of Chestnut street is enjoying an outing at Provincetown. Miss Katharine Weeks is senior counselor at the Lawrence Y camp at Long-sought-for pond, Westford, for the month of August.

The following inventory of estates has recently been filed: Leitch, Harriet E., Andover. Colver J. Stone, ex. p., \$26,569—76 Am. Tel. & Tel. Co., \$10,184; 10 Edison Elec. Ill. Co., \$2,000; bank deposits, \$2,731.

Mrs. Franklin Ellis entertained the Hawthorne club Wednesday night at her home on Elm street. She was surprised by the members who presented her with a beautiful gift in honor of her birthday. Refreshments were served.

Miss Florence West of the Andover Savings Bank, Miss Katharine Walsh of the Smith & Love Company and Miss Marion Abbott of Main street left Saturday for Block Island, R. I., where they will spend their vacation.

Mr. and Mrs. Stephen Gilliard, Miss Minnie Gilliard, Fred Gilliard, Bruce Gilliard and George Dessin of Wissickon, Philadelphia, Pennsylvania, are spending the week at the home of Mr. and Mrs. Stephen Gilliard on Chestnut street.

S. H. Bailey of this town attended the reunion of the descendants of Stephen Batchelder of Hampton, N. H., which took place in the Hampton town hall on Wednesday. Mr. Bailey was chosen vice-president of the association.

The preacher in the Free church next Sunday will be Rev. William G. Poor of Upton, Massachusetts, a son of Andover and brother-in-law of the late John N. Cole. His many Andover friends will be glad to welcome him back to his old home church.

Miss Mary Robertson, daughter of Mrs. Ellen J. Robertson of Main street, will teach this fall in the Lunenburg high school. Her subjects will be chemistry, history and science. Miss Robertson is a graduate of Punched High school and of Boston University this year.

Miss Virginia Ramsdell who has been counselor at Camp Kiwanis, South Hanson, has been transferred to the Campfire Camp in Auburn where she will be head tent counselor. She will also have charge of the discipline, lead the sports, teach the camp songs and be instructor in swimming.

A slight accident took place at the corner of Main and Locke street on Tuesday when a car driven by Joseph Langley of 32 Park street coming out of Locke street, collided with that of Samuel Tikolsky of 58 River street, Haverhill, which was proceeding north on Main street. No one was injured.

Lucky Strikes Unlucky

For the second time in a week the Lucky Strikes fell before the Silver Nine, the former taking the short end of a 13-9 score.

The game was played Wednesday on the playstead and bases on balls featured, no less than twenty free tickets to first being issued by four pitchers. Bissett walked 10, Jackson six and Reed and O'Connor two each.
Reed and Connors did the twirling for the Lucky Strikes and while they pitched stellar ball they were given raw support. Wild throws to first by Sullivan and Kelly gave the Silver Nine several runs. Gordon, Bissett and Cairnie were the heavy hitters and clouted out two baggers.

Garden Club Entertained at Durham

The garden department of the November club were guests last Friday of Mrs. James C. Sawyer at her summer home in Durham, N. H.

A very beautiful garden built on three levels with pergola, a swimming pool surrounded with the yellow of marigolds and crapeolus, masses of petunias and annual larkspur delighted the visitors. A visit was also made to the orchards of the State university which are not far distant and where successful methods of growing peaches, plums and apples were observed.

A delicious luncheon was served by the hostess after which the interesting garden of Mrs. Bradley at Dover was inspected with its unusual effects of rockwork and pools of water combined with foliage and flowers.

The members of the department who enjoyed the outing were Miss Fannie Davis, Mrs. Elen A. Baldwin, Mrs. William A. Trow, Mrs. George L. Selden, Mrs. Francis Bergstrom, Mrs. Henry A. Bodwell, Miss Sarah Bodwell, Miss Kate P. Jenkins, Miss Florence Parker, Miss Anne B. Penniman, Miss S. Ella Penniman and Miss Edith Donald.

Weekly Whists at K. of C. Hall

The weekly whist party at the Knights of Columbus hall last Friday night was well attended, twelve tables being used. The punchers were William McDonald, Mrs. Frank McBride, Robert Wilson and Mrs. Joseph Lynch.

Prizes were awarded to the following: Mrs. E. C. Edmonds, set of six water glasses; Mrs. Alfred Frotten, waste basket; Mrs. William Higgins, olive dish; Elsie Friberg, white tie; Mrs. James Bonner, sugar and creamer; Mrs. John Young, cake; Julia Schofield, salt and pepper shakers; Mrs. William Navin, sugar and creamer; Julia Watts, salt and pepper shakers; Mrs. Joseph Lynch, perfume; Phyllis Wirtzberger, candy jar; Mrs. Frank McDonald, powder box; C. L. Casey, powder; Maude Keefe, towel; Mrs. Louis Edwards, stationery; Rose Lefebvre, candy jar; Mrs. Ray Lefebvre, mustard jar; Mrs. E. Copley, nut picks; May Finnich, hair receiver.

Ray Lefebvre, cigarettes; James Greeley, cigars; William McCormick, razor; Joseph Lynch, tobacco; Aubrey Polgreen, sugar; Patrick Barrett, tie; John Cussen, shaving cream; Gustav Lager, cigarettes; James Grant, cans of soup; James Keefe, cans of soup; Stephen Castle, jar of pickles; Charles Hurley, olives.

Pass Junior Life-Saving Test

William L. McDonald, son of Mr. and Mrs. Frank S. McDonald of 129 Chestnut street, and Cyrus Gates of Gardner avenue, successfully passed the Junior test of the American Red Cross Life Saving Corps at Forest Lake, last Friday.

The examiner was Miss Adela McAloon of the Y. W. C. A. of Lawrence.

Both these boys are the first junior life-savers of Andover and are the first pupils of Frank McBride, registered Red Cross life-saver in charge of the swimming beach at Pomp's pond.

Marriage

August 10, 1925, in Shawheen Village, by Rev. John Mason, Frank Thompson of 89 Osgood street, Lawrence, and Irene Harrison of 68 Haverhill street, Andover.

Deaths

August 10, 1925, at 12 Florence street, Mrs. Mary Matilda McIntire, widow of Emmons McIntire, aged 61 years 8 days.
August 11, 1925, at Plaidston, N. H., Ralph B. Clement, son of the late Mildred Clement, aged 49 years.

CELEBRATE MASS

(Continued from page 1)

Sullivan of St. Mary's, Lawrence, at the 10.30 mass. After the masses Walter Rowen sang the hymn "Prayer to Our Lady," written by Rev. Wm. Sheedy, O.S.A., of Staten Island, N. Y., formerly of St. Laurence's church.

Following the masses breakfast was served at the Hart home on High street by Caterer A. P. Weigel at which one hundred guests were present, many of whom were personal friends of the priests.

The young priests will remain here for two weeks when they leave for Catholic University, Washington, D. C., to further pursue their studies.

The program:

Asperges Me
Processional—Lovely Appear
Kyrie
Gloria
Credo
Offertory—Jurat
Michael Byrnes
Sanctus
Benedictus
Agnus Dei
Hymn—Prayer to Our Lady
Walter Rowen
Benediction and Papal Blessing
O Salutaris
Tantum Ergo
Postlude—Priest's March from "Athalie"

Mendelssohn

Obituary

MRS. EMMONS MCINTYRE

The funeral of Mrs. Emmons McIntyre, of 12 Florence street was held at the late home on Wednesday afternoon at 2.30 o'clock with Rev. F. A. Wilson, D.D., as the officiating clergyman. Burial was in the Spring Grove cemetery. The bearers were: Charles Cole, Edward Nichols, William Osgood, William McIntyre, Irving Shaw, and Rev. Arthur S. Wheelock.

The casket was surrounded by a wealth of flowers from relatives and friends.

Mrs. McIntyre was born in Essex, Mass., in 1864 and came to Andover eight years ago. Her death came after a long illness which she bore with characteristic cheerfulness and patience. Among the scriptural passages which Dr. Wilson read with peculiar appropriateness was the parable of Judgment which ends with the words of Jesus, "Inasmuch as ye have done it unto one of the least of these . . . ye have done it unto me." Mrs. McIntyre's whole life was one of untiring and glad service for others. "Her mansion was prepared, and she was ready for the call which comes to us all in His time. She was a good woman, of many excellent virtues, bravely facing duty and living cheerily a life of Christian service."

Mrs. McIntyre is survived by her daughter, Mrs. Charles H. Sanderson of Andover, and her granddaughter, Mrs. Arthur S. Wheelock of Willimantic, Conn.

BUFFALO TAKEN BACK TO CANADA

Indians See Prophecies Fulfilled—800 Head Loosed in Alberta.

Calgary, Alberta.—The buffalo have returned to the north country. The prophecy of the oldest Indians, repeated from generation to generation, has been fulfilled. A legend has materialized.

Samuel Hearne reported that the northland of Canada was full of buffalo 160 years ago. Then they disappeared, and for many decades the Indians awaited in vain for fulfillment of the promise made by their medicine men that they would return.

That the buffalo, when they did come back, arrived in modern steel scows, towed by a smorting river steamboat, mattered not a whit to the new generation of Indians who have clung to the truth of the old medicine men's legend.

As the rays of a setting sun slanted out across the waters of the Slave river, in northern Alberta, bathing aspen bluffs and wild meadow in pink splendor, 200 young prairie buffalo from the federal government reserve at Wainwright were unloaded from river scows and were turned loose in the woods and grassland of the sub-arctic.

2,000 Head to Be Shipped. These animals are the vanguard of 2,000 head which will be shipped during the summer and autumn from Wainwright, where the government herd has outgrown the preserve originally set apart for it. They are being sent to mingle with the wood bison, a different animal altogether, but a species with which it is hoped that the erstwhile "monarchs of the plains" will mingle in unity.

None of the wood bison was in sight, when the young buffalo, with massive heads lowered and bellowing furiously, charged into their new domain as they were liberated from the scows.

One of the moot points in connection with the shipment of buffalo to the north and one upon which the success of the experiment depends is whether the smaller prairie animals will be able to fraternize with the wood bison or whether they will be forced to fight for existence against large numbers of larger and stronger animals.

It had been hoped that one or more herds of the wood bison would be in the offing when the prairie habitants arrived, in order that their reactions might be noted at once and data supplied to the federal department of the interior. Falling this Rangers of the wood bison patrol will follow the buffalo inland until they come into contact with the original denizens of the northland.

800 Miles From Their Home. The first shipment of buffalo are now more than 800 miles from their home, having traveled north by rail, penned in special steel cars, and up the Slave river by boat. Although to all intents and purposes as wild as they were in the days of the Indian and fearless range, little difficulty was experienced in branding the young animals, or in loading them on train and boat. The first shipment was carried out without accident or incident.

Hopes that great herds of a new species will be evolved in the north have resulted from experimental breeding operations at Wainwright, where crosses between the buffalo and domestic cattle have produced a sturdy animal, called, for want of a better name, the "cattalo."

At the same time the buffalo have been interbred successfully with the northern yak, a smaller, but not less sturdy animal, and one animal of its kind in the world, is a cross between a buffalo-yak and a domestic animal.

If the prairie buffalo mingle equally well with the wood bison it is probable that the whole prairie herd, the largest in the world, numbering about 10,000 animals, will be shipped to the hinterland of Alberta in the near future.

Louisiana Planter Uses Speedboat in Business

Plaquemine, La.—Miss Plaquemine, a hydroscopic boat constructed by Henry N. Sherburne of Plaquemine, is capable of making a mile in 58 seconds.

Miss Plaquemine with the eight other members of the fleet, is the result of the need of Mr. Sherburne for a rapid means of transportation over the bayous of Louisiana in visiting his business enterprises scattered along these channels. It has no under-water propeller, being driven by a 90-horsepower airplane motor mounted on the stern, using a propeller of the type mounted on planes. The boat is 20 feet long and 7 feet wide, and when traveling at full speed, draws only two inches of water, while at slow speed it draws six inches.

Miss Plaquemine accommodates three passengers and a pilot, who controls the boat from a steering post similar to an automobile.

Its inventor claims that it will maintain an average speed of 50 miles an hour throughout a day without injury to the motor.

2,310,441 in Buenos Aires. Buenos Aires.—Buenos Aires now stands sixth in the list of the world's cities as regards population. A police census just completed gives the greater city 2,310,441 inhabitants.

LUNCH MONEY DISPUTE MAY GO TO HIGH COURT

Right of Federal Employees to Charge for Midday Meal Contested by Government.

Washington.—The moot question of whether a government employee may take lunch at government expense outside of Washington during a short trip to Alexandria, Rockville, or other nearby points, may go up to the Supreme court of the United States.

This developed today when it was learned that the Department of Justice had under consideration the matter of asking the Supreme court for review of the case of Herbert S. Ward, whose item of \$1.50 for a meal in Alexandria was disallowed by the controller general, but who has won a favorable decision by the Court of Claims, awarding him the \$1.50.

The matter, which bids fair to become one of the most celebrated battles ever fought over an expense account of \$1.50, is held by officials of the general accounting office and of the Department of Justice to be of great importance to all government departments and establishments in Washington and to every employee likely to travel on government expense.

The controller general in several rulings has held that government employees cannot be reimbursed for meals taken between the hours of 8 a. m. and 6 p. m. while the employee is near his "permanent station."

The Court of Claims reversed this position of the controller general in its decision of June 15 in Ward's case, and said:

"It is not disputed that the plaintiff saw fit to eat during the hours of his absence from the District, which embraced a usual meal hour within the regulations, or that he ate at the expense claimed, and no reason appears why he should not be reimbursed accordingly."

Ward, at the time of eating the disputed meal, was an employee of the Department of Agriculture, and had been ordered October 6, 1924, by the then chief inspector to go to Alexandria about 11 o'clock in the morning on government business. Ward did so, ate a meal in Alexandria, and put in his expense account. The controller general allowed all of it except the meal, which was deducted.

Won Greek Premiership in Bloodless Revolution

General Pangalos, who led in the recent bloodless revolution in Greece and is now premier of the new government.

Blind Men Skillful at Warning of Air Raids

London.—Interesting details as to how blind men were called in at one phase of the great war to assist in the defense of London were made public recently.

In the early days of the war the only sound locator was, of course, the human ear. Commander Rawlinson, royal navy, then in charge of the scanty air defenses of the city, found the ordinary man's sense of direction by hearing too inaccurate. One day he astonished the unimaginative officers and officials of Whitehall by asking that several detachments of blind men from the various institutions be sent to his headquarters. Their keenness of hearing, it was shown, was of great assistance in locating Zeppelins on their way to London.

"Ole Swimmin' Hole" to Be Kept as Riley Knew It

Greenfield, Ind.—Brandywine creek, boyhood haunt and frequent theme of James Whitcomb Riley, Indiana's most widely known poet, is to be preserved as Riley knew and loved it, for future generations as a part of the Riley memorial park here.

All litigation over 40 acres of land along the creek has been ended by this city, whose citizens contributed \$12,500 for the project. The tract includes the swimming hole used by Riley and his gang of chums 60 years ago and about which he wrote "The Ole Swimmin' Hole."

FARM FIGURES DISCLOSE GAIN

Survey of Returns for 1924 Show Good Margin Over Previous Year.

Washington.—A survey of financial returns on 15,103 farms, made public by the Department of Agriculture, disclosed an average favorable margin last year of \$1,024, between cash receipts and cash expenses, which, with increased inventories amounting to \$181, brought the average return to \$1,205 for the use of \$17,200 of capital and the labor of the farmer and his family. These farms also produced an estimated average of \$266 in food and fuel consumed on them.

The figures showed a considerable improvement over 1923, when a similar survey covering 16,183 owner-operated farms disclosed an average cash balance of \$890, increased inventory of \$130, and produced food and fuel worth \$263, on capital amounting to \$17,400.

The value of land and buildings on the farms surveyed in 1924, averaging 303 acres, was placed at \$14,323, the size and value being about the 1920 census average.

Grain Fluctuates, Rail Rates Steady. Prices paid the farmer for corn and oats during the 20 months from August, 1923, to last March "fluctuated without relation to transportation costs, according to the bureau of railway economics."

Whereas farm prices of corn and oats were shown to have fluctuated widely during that period, freight rates were practically stationary, the bureau said, and therefore were "not responsible" for such fluctuation, whether upward or downward.

"Economic conditions and other factors are more important than freight rates in affecting the prices paid to the farmer for corn and oats," the bureau concluded.

While there were some local readjustments in freight rates, practically all of which were decreased, none of these, the department said, reflected "any material change in the prices paid to the farmer in relation to the general trend of prices during the period."

Less Than Half Moved by Rail. Figures for five years, the bureau added, show that an average of only 19.2 per cent of the total corn crop and 33.3 per cent of the total oats moved by rail, the balance being retained on the farms or sold for local consumption.

The study covered 77 points of origin for corn and 87 for oats, and cited as one example of price fluctuation and its relation to freight rates the prices paid for No. 2 yellow corn at Churdam, Iowa. The spread of 59 cents a bushel, from 60 cents to \$1.19, in the prices paid there, the bureau said, was "almost nine times the freight rate to Council Bluffs, Iowa, and more than five times the freight rate to Chicago."

N. Y. Banks Victims of Small Deposit Game

New York.—Losses estimated as high as \$100,000 have been suffered by banks in the New York district in the last month through the operations of swindlers, who deposit a small amount of cash against which they draw a large check immediately. The checks prove worthless and the bank is out the amount of the checks which it cashed.

The swindle is so old that surprise is expressed in banking circles that it still works in many cases. The usual procedure, recently, it is said, has been to open an account with cash and a large-sized check on a bank in Florida or some other distant point. The losses in most cases have been due to the failure of clerks to put a proper "stop" on the checks so that no money would be paid out until the funds have been received from the distant banks whose names the swindlers use.

U. S. Revolutionizes Chinese Stage Ways

Los Angeles, Cal.—A revolution in the presentation of oriental dramas by the invasion of western customs has been noted at the Chinese theater here.

An American jazz orchestra has placed an aggregation of native stringed instruments and Chinese girls are chosen to play feminine roles in preference to male impersonators. The little theater on the fringe of Chinatown offers a further innovation prompted by western influence by the installation of real scenery, backdrops and wings, to relieve the strain on the Americanized oriental's imagination, formerly occasioned by the lack of "atmosphere."

Managers of the Chinese playhouses explain that the innovations are necessary since the younger generation of Chinese, familiar with American methods of staging productions, demand a stimulation of the centuries-old methods of oriental presentation.

Fall Is Fatal

Paulsboro, N. J.—William McIvane, seventy years old, recently retired after working for 44 years with the DuPont company. He was one of the first powder line foremen and survived this dangerous job with never a serious accident.

He fell from the top of a cherry tree at his home, broke his neck and died within a few minutes.

INDIAN BONES, 1,500 YEARS OLD, FOUND IN NEW YORK

Important Discovery of Algonkian Remains Made by Head of Indian Museum.

Auburn, N. Y.—What is believed to be one of the most important discoveries of Algonkian remains ever made in New York state was announced by Donald A. Cadzow of the Museum of the American Indian, Heye foundation, New York city, who has been working in the Finger lakes region for the past two years.

On Frontenac island, the only island in Cayuga lake, Mr. Cadzow has discovered and quietly explored an Algonkian burial ground 116 feet long by 50 feet wide. The island lies off the village of Union Springs, Cayuga county.

"From a scientific standpoint it may rival any discovery ever made in the search for Algonkian remains," Mr. Cadzow said. "I roughly estimate the skeletons I found there to be 1,500 years old and of the first period. We found 14 skeletons, all being prone instead of flexed or bent as the Algonkians and Iroquois of later periods. Evidence that the early Algonkians were cannibals is found in the fact that we found broken and burned human bones mixed in a singular way with those of animals."

Mr. Cadzow has been associated with the Heye foundation for a number of years in archeological survey in this region. All of the bones and relics found have been shipped to the museum in New York city.

The finds include, besides many skeletons, stone implements, some of them not identified, one large perforated winged bannerstone made of white limestone, the first to be found in place with a burial site in the middle Atlantic; carved stone objects resembling deer heads; beef incisors, a small notched flint arrow point, several antler flakers, bone arrow points and the bones of swans and other birds.

"In one grave," said Mr. Cadzow, "we found a skeleton in the phalanges of the right hand of which rested a small bone spoon, three inches from which, resting on bedrock were three small beaver teeth, an imperfect barbed bone harpoon point, and an antler flaker. Under the left hand lay the crushed skull of another adult person, face downward, but no other bones traceable to this individual were found."

The authorities of the village of Union Springs have placed guards on the island and it has been posted against trespassers.

Oxford Boasts Unique Collection of Astrolabes

Oxford, England.—The sixty-three astrolabes given the university by Dr. Lewis Evans, brother of Sir Arthur Evans, the archeologist, when taken with those now in the possession of the colleges, form the most complete and representative series of this rare and ingenious instrument.

The astrolabe appears to have been invented in the second century before Christ by Hipparchus, who measured the exact length of the year, the time of the revolution and eclipse of the moon, and invented trigonometry and the system of locating points on the map by latitude and longitude.

It is a flat dial, with a sight across it, and a number of hands, which can be set against the numerical tables around the circumference. Its use is to measure the altitude of the sun and the stars.

The astrolabe is one of the few scientific instruments saved from the wreckage of Greek civilization. The Arabs, who, in their great day, were among the most enthusiastic scientists known until present scientific developments, brought the instrument to a high standard of perfection and used it generally for navigation.

Greeks Used Taximeters, Oxford Researchers Say

Oxford, England.—Modern research has disclosed that the chariots which plied for hire about the Acropolis in the days of Pericles were fitted with taximeters.

In the gray dawn of Attic history distances were measured by professional pavers called "bematists," who followed the kings on campaigns and processions, but with the introduction of horses and chariots the bematist's lot in that hot and dusty land became an active and unenviable one. Thus the taximeter of those days was, it is said, invented out of sympathy for this industrious order of men.

The profitable little instrument survived wars and invasions, and clicked on through all the darkest ages. They are recorded to have been in use in Spain in the days of Columbus, and John Evelyn, the Seventeenth century diarist, speaks of them as "waywisers," very "pretty and useful."

Of these "waywisers" or "perambulators" a number have now been collected and are on display in the newly-reopened Oxford museum of scientific instruments.

Ends "Flop"

Mount Gilboa, Ohio.—This city no longer will allow tramps the privilege of using its jail as a "free flop house." By order of the mayor, the doors of the prison have been closed to the wanderers as the result of council's protest against the \$50 gas bill incurred last winter at the jail through the housing of hoboes there.

PLAN FOR SAFETY IN COMMUNITIES

Organize to Cut Down Annual Toll of Deaths and Accidents.

By C. B. AUOL, President, National Safety Council.

Chicago.—Every community contributes its quota to the yearly total of 85,000 accident fatalities and the toll continues to increase year by year. Twenty thousand of the victims are children. Twenty thousand men, women and children are killed in automobile accidents in a year. Twenty thousand more meet death by accident in their homes. The injured and crippled run into the millions each year. These are facts, the significance of which is more poignant when it is realized that at least 75 per cent of all accidents are avoidable.

Aware of Menace.

Communities, fast becoming aware of the menace of the avoidable accident, are organizing themselves into effective associations known as community safety councils to work for the prevention of accidents. There are now over 60 cities in this country with active councils studying accident hazards, solving safety problems and spreading accident prevention information and education into factories, homes and schools.

The public safety activities of the community safety councils include safety instruction in public and parochial schools (it is estimated that more than 2,500,000 children are now receiving safety education as part of their school work); organization of highway safety committees; the placing of bulletin boards and the posting of public safety bulletins; the elimination of traffic hazards; law enforcement; conducting schools for automobile drivers; fire prevention; home safety; children's activities; safety drivers' clubs; water life saving and others.

By schools for safety supervisors; first-aid courses; fire-prevention courses; mass meetings for workmen; meetings for managers and executives; organization of plant-safety committees; plant visits and inspection and other means, the community safety council has become a vehicle for accident prevention work in the industrial plants of the community.

Cut Down Toll.

Among the cities showing a reduction in 1924, through the efforts of community safety councils, were the following:

	1923	1924
Baltimore	105	90
Louisville	68	45
Rochester	38	31
Memphis (county)	45	35
Chattanooga	39	16
Cleveland	155	168
Cincinnati (county)	137	102
Battle Creek	22	14
Syracuse	30	25
Denver	41	39
Newark	104	101
Portland, Ore. (county)	32	29
Tulsa	30	27
St. Paul	38	15
Elie	55	52
St. Wayne	19	13
Beloit	8	6

In Grand Rapids, Atlanta, Wilmington, and Boston the safety campaigns reduced accidents during the first 11 months but totals for the year have not yet been computed.

The experience of these cities has furnished a partial yet convincing demonstration of what can be done when the whole community is organized to combat the waste of human life through preventable accidents.

Rode for Mile on Back of Whale, Says H. A. Snow

New York.—Having ridden a mile on a whale's back, H. A. Snow, naturalist and explorer, has returned to New York from the Arctic. He has motion pictures to prove his feat. Also he, in the name of the United States, has posted a proclamation of annexation on Herald island, 80 square miles of barren rock. He has a photograph of Old Glory floating over the snow against a background of rocky cliffs.

While in a small boat making pictures of a whale, they had just harpooned Snow and several companions suddenly found the boat, themselves still in it, lifted out of the water and pitched this way and that. A tall slapped the water behind them and the boat stuck out in front of them. It was the harpooned whale's mate or its baby. The keel of the boat was square on the whale's back. Occasionally, as the boat was borne toward the harpooned whale, the pursuing leviathan dived and the boat settled into the water, but it soon was lifted out again.

Snow said that he would not take the island as a gift, but that the United States was welcome to it. He found bones of explorers who died there. Gazetters say that island was discovered in 1849 by an Englishman.

Sun Causes Blast

Johnstown, Pa.—Heat of the sun is believed to have caused the explosion of a tank car containing 8,000 gallons of gasoline at the siding of the Crystal Gas and Oil company. George Simpson, forty-three, a workman, and Andy Tarchanan, seven, who was playing near by, were probably fatally burned. Nearly 50,000 gallons of gasoline was stored in the underground tanks within a few yards of the car, but did not explode.

RICH HOME AWAITS SOME POOR GIRL 14 YEARS OLD

New York Millionaire Would Adopt Girl to Share Wealth—Examines Many Candidates.

New York.—Some Cinderella, in place of a prince for a husband, is going to have all the advantages that riches can give in return for love of an adopted father.

Edward K. Browning, wealthy real estate operator, has advertised for a pretty, refined girl about 14 years old to be brought up as his own child with "every opportunity, education, travel, kindness, care and love."

His office has been flooded with applications. After he sees and talks with prospective daughters they have with his approval or not. In place of a coach and four horses that turn into mice they are sent home in a big limousine with liveried chauffeur and footman.

Mr. Browning is already the foster father of two girls, Marjorie Gloria and Dorothy Sunshine Browning. After he divorced his wife in Paris last year it was agreed that Marjorie was to stay with Mrs. Browning while he retained Dorothy. He wants another girl principally to grow up as a playmate to Dorothy, who was lifted into the lap of luxury six years ago.

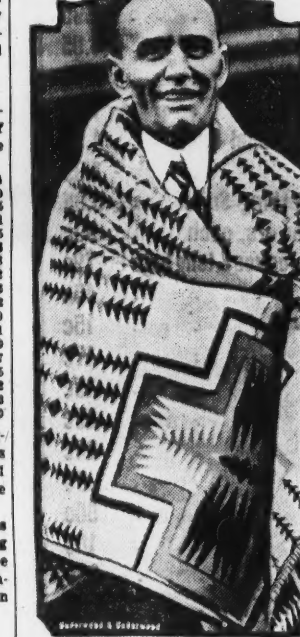

Children of the poor, Mr. Browning believes, are healthier and do better in world affairs than children of the rich. Dorothy's companion will be taken into his home on trial for a month or six weeks.

"Dorothy has turned out to be a perfect prize," Mr. Browning said. "I got so homesick for her recently that I dropped all business and traveled up to the private camp in northern Vermont where she is staying. In winter I send her to a select school for girls on Riverside drive."

In town Dorothy's playground is a private roof garden, twelve stories above the street, with an artificial lake for bathing.

Jardine Wearing Blanket Gift of City of Portland

Secretary of Agriculture William M. Jardine wearing the Indian blanket that was presented to him by the city of Portland, Ore., during his recent visit to the Northwest in the interest of the farmers.

Secretary of Agriculture William M. Jardine wearing the Indian blanket that was presented to him by the city of Portland, Ore., during his recent visit to the Northwest in the interest of the farmers.

Skeletons of 8 Giants Are Found in Mexico

Mexico City.—Eight skeletons of men between 10 and 12 feet tall were found in a hidden cave in the mountains of western Chihuahua by a mining engineer looking for mines.

The engineer discovered a cave where he found a number of heavy piles sunk in the floor of the cave. The piles were wrapped around with leather, forming large bundles. Nesbitt opened one of the bundles and found a skeleton in a sitting position which had been bound in a pile and then covered with leather. The skeleton in a sitting position measured 6 feet, giving the height in an erect position at nearly 12 feet.

Footprints found in the clay were 18 inches in length. The authorities at Chihuahua plan an expedition to the cave to bring the skeletons to Mexico City, where they will be placed in a museum.

The authorities consider this discovery proof that a race of giants lived in northern Chihuahua thousands of years ago. They are believed to have been the earliest human beings on this continent.

Now a Church

Tonopah, Nev.—In the hills near the new gold camp of Gilbert, thirty miles from here, is an old stone structure known as the Outlaw's cabin. It has stood for fifty years or more. Recently the name of the cabin was changed to the Radio church. Every Sunday evening it is filled with those who listen in on a sermon delivered several hundred miles away.

OLD GOLD CAMP TO BE WIPED OUT

Marysville, Mont., Deserted by Railroad When Mines Peter Out.

Marysville, Mont.—Marysville, Mont., to be wiped off the railroad map within a few weeks, as it has been erased from records in its other activities, once was the goal of a race between two great railway systems and in the thirty-six years of its life was the source of wealth valued at not less than \$100,000,000.

The town, incidentally, produced a baseball team with a record of defeating all Pacific coast league clubs of its day and of sending several players to the major leagues. A quarter of a century ago Marysville had a population of 7,500.

Petition of the Northern Pacific railway to remove its tracks from Helena to Marysville, relegates to the backwoods what is left of the one-time famous town and again it is to become a stage coach town, fifteen and one-half miles from a railroad.

Left When Mines Worked Out.

Years ago the Great Northern, which lost the race for a terminus within the city and ended its line just outside the boundary, abandoned Marysville and gradually, as the mines worked out, the surviving line limited its service until, during the last year, a train operated only when there was an accumulation of freight for its haul.

Truly a ghost city, with a handful of shacks and tumbled foundations left of its once bustling business district, scattered, weather-beaten houses outlining its residence section, possibly fifty or sixty families claiming it as home, Marysville indicates its past glory only to the imaginative.

The famous Drum Lummon mine, chief source of its wealth, is still being worked sufficiently, it is said, to pay wages to a handful of men; some other of the older mines are operated on the same scale and there are numerous prospects whose owners optimistically forecast a renewed activity in the old camp.

Nevertheless the Montana railroad commission, after an exhaustive investigation, has picked the bubble of hope and has given its consent to the abandonment of the railroad.

Made Eastern Millionaires.

The Drum Lummon mine, discovery of Thomas Cruse, alone is said to have produced \$67,000,000 worth of gold. Cruse sold the mine to a London syndicate for \$1,000,000 when the vein had just been scratched. The new operators honeycombed the surface of the hill and, so the story goes, made millionaires in Boston, Helena and New York, as well as in England.

Many other mines paralleled its development, and, from one of these, the Penobscot, Nate Vestal brought down to Helena what was then the largest bar of gold in the world, valued at \$50,000.

What is said to have been one of the first concentrators ever constructed on a commercial scale was built below the Drum Lummon to work the tailings of the famous mine. The ruins of the giant plant still mark the road to the city.

Ancient Indian Cemetery Found by Californians

Santa Barbara, Cal.—An ancient Indian graveyard, believed to antedate the California mission period, was discovered recently near Purissima mission in the Santa Ynez valley, near here, by Don Meadows and Ray Gravel of Orange, Cal., research workers. A number of prehistoric specimens, including several Indian skeletons, skulls, beads and arrowheads were obtained.

The burial plot, once the "happy hunting grounds" of the bronzed warrior of the West, was situated in the center of what was a large bean patch, which, up to the time of the discovery, completely obliterated all trace of the important find.

According to Mr. Meadows, they dug through three different layers of graves, each from three to four feet in depth. It is possible there are other graves below, he said.

The graves were buried in a sitting posture with the knees crooked beneath the chin. Of forty skeletons which were unearthed every one was found facing the west-toward the setting sun.

Above each grave, as a sort of partition between it and the one above, was found a limestone slab several inches thick.

Dog's Divine Right to Bark Says Magistrate

Portland, Ore.—Lugubrious baying of a hound, the raucous bawling of a calf or the timid bleating of a goat are as God-given and free as the speech of man, according to a decision given to the Portland city council by City Attorney Frank S. Grant, and the city can take no legal step to throttle the vocal expressions of animals.

The decision was given on a petition of citizens living in the vicinity of a kennel of wire-haired fox terriers.

Yes! We've Got Them Long Enough

A Little Out of the Way But It Pays to Walk

TENNIS TOURNAMENT

Residents of Shawsheen Invited to Take
Part in Tournament Opening on
Saturday of Next Week

The fifth annual Shawsheen Village tennis
tournament will begin Saturday, August 22.
All residents living in Shawsheen Village are
cordially welcome to enter. Entries must be
in by 6 p.m. Thursday, the 20th.

A meeting Thursday night at 7 p.m., in the
Balmoral Spa will be held for the drawings,
all those interested may attend this meeting.
Regulations covering tennis tournament are
as follows:

Any member of the Shawsheen Tennis
Club or any resident of Shawsheen, or one
who is employed in Shawsheen is eligible and
in the event that player is not a member of
the club, the entrance fee will be \$2.00. The
entry fee for a member will be fifty cents.

The first, second and third rounds are
allowed two days each, providing weather
permits. Semi-finals are to be played on
August 29 and the finals on August 30 or 31.
The best two out of three sets for all rounds
except the finals which will be the best three
out of five sets.

Entries may be mailed or telephoned to
the Balmoral Spa.

Traditions Tell of Many Sunken Cities

Traditions of sunken cities are al-
ways interesting. Both Killarney and
Lough Neagh are reputed to have
once been the sites of famous Irish
cities, drowned as a punishment for
the wickedness of their inhabitants.
Holland boasts of several ruined towns
sunk at the bottom of the Zuyder zee,
while off the coast of Holstein lies bur-
ied the legendary city of Vineta,
whence (so fishermen say) the tolling
of the bells in the church spires comes
up faintly through the waters on quiet
days. Most famous of all is Ys, said
to have stood where now is the Bay
of Douarnenez, a little west of Quim-
per, in Brittany. Ys was a magnifi-
cent city, built below the level of the
sea, and it owed its destruction to a
certain wicked princess named Dahut,
who, to gratify an idle whim, opened
the sluice-gates and herself perished
in the ruin which she brought upon
the city.

Bear as Photographer!

A student of forestry was camping
with two friends in the wildest part of
Allegheny park. Taking his camera,
he ramblod off alone to look for pic-
turesque subjects.

He had placed his camera on a
fallen tree, and had gone some little
distance to get a viewpoint, when he
saw a black bear browsing amongst
some berry bushes. He was scared,
and, forgetting his camera, sped back
to his camp and companions. With
them he returned to the spot, but, in
the meantime, the bear had disap-
peared.

The camera was still on the log, but
a plate had been exposed. When it
was developed it showed the frightened
young man in rapid flight down the
trail. The bear, investigating the
camera, had touched the trigger with
its nose.

Sadler's Well

A question as to the identity of a
person named Sadler has been sug-
gested by a recent appeal, sponsored
by leading men, for the restoration to
the nation of the historic theater
known as Sadler's Well. Sadler lived
in the time of the Stuarts, and was a
road surveyor and a property owner.
One day some workmen, while digging
for gravel on a piece of land belong-
ing to him in Clerkenwell, came on an
ancient well—one of the medicinal
springs to which pilgrimages were for-
merly made. The site at once became
a popular resort. Sadler built round
it a pleasure house, set in pretty
gardens and groves of trees. He pro-
vided music and other entertainments,
and in a short time the existence of
the waters was almost totally forgot-
ten.—Family Herald.

Excellence

Excellence may be considered an
axiom, or a proposition which becomes
self-evident just in proportion to the
clearness or precision with which it is
put. If it fairly exists, in this sense,
it requires no further elucidation. To
point out too particularly the beauties
of a work is to admit tacitly that these
beauties are not wholly admirable. Re-
garding, then, excellence as that which
is capable of self-manifestation, it but
remains for the critic to show when,
where and how it falls in becoming
manifest.—Poe.

Vision of Animals

Men and monkeys have far better
eyesight than any other animals, ex-
cept birds. It has been found that
most birds have powers of vision
about one hundred times as great as
that of normal man. Some birds can
see a worm at a distance of 300 feet.
The eyes of birds are especially adapt-
ed to see moving objects at great dis-
tances, so that the approach of an
enemy is observed by them long be-
fore the human eye could detect it.

At Any College

Homecoming day is the time when
alumni come back to the old alma
mater, criticize the furniture, fresh-
men and architecture of the house,
reorganize the football team, weep
mildly at the ivy, declare things
weren't that way when they were
in college, and express great wonder
as to where the younger generation is
going. Then it rains.—Colorado
Dodo.

PERSONALS

Miss Madeline Nowell of Haverhill street
is enjoying a week's vacation.

Mr. and Mrs. Edward Street have returned
from a motor trip to Philadelphia.

Mrs. C. Leroy Ambye of Argyle street has
returned after spending a week at "Twin
Oaks," Sandy Pond, Ayer.

Mr. and Mrs. Edward R. Lawson of
Haverhill street have returned from a trip
through the White mountains.

Mr. and Mrs. Frank A. Hardy have re-
turned from an automobile trip through
Canada and the White mountains.

Miss Grace Macdonald of Dumbarton
street has returned from Hampton Beach
where she spent the past two months.

Rev. Alfred Church, pastor of the Free
church, was the guest of Mr. and Mrs.
Clarence W. Coolidge at Sandy pond recently.

Mr. and Mrs. Edward Wheelock have
returned to their home on Carisbrooke street
after a trip to Niagara Falls, Montreal and
Quebec.

Eugene V. Lovely, sub-master of Pynchard
High school, has rented a house on Caris-
brooke street and will occupy it early in
September.

Mr. and Mrs. Clarence W. Coolidge and
family of Haverhill street have returned
from a vacation spent at "Twin Oaks," the
summer home of Mrs. Coolidge's mother at
Sandy Pond, Ayer.

Mr. and Mrs. William Fitzgerald and son,
and Mr. and Mrs. Benjamin Ellis of Andover,
street have returned from a motor trip
through Vermont and the White mountains.
Frank A. Baldwin of Carisbrooke street
is at Kittery, Maine, for a vacation.

Wedding

THOMPSON—HARRISON

A pretty home wedding was solemnized
Monday evening at seven o'clock at the
home of Mr. and Mrs. William Harrison of
68 Haverhill street, when their daughter,
Miss Irene Harrison, became the bride of
Frank Thompson, son of Mr. and Mrs. S.
Thompson of 89 Oggood street, Lawrence.
The ceremony was performed by Rev. John
Mason, D.D., pastor of the Salem street
M. E. church, Lawrence, and the double
ring service was used. The nuptial music
was played by Mr. Kimball.

Miss Beatrice Harrison attended her sister
as bridesmaid and Miss Evelyn Thompson, a
niece, was flower girl. Thomas
Gebo, a nephew of the bride, was ring-bearer,
and the best man was Lawrence Thompson,
a brother of the groom.

The bride who was given in marriage by
her father, wore a gown of ciel blue georgette
over canary yellow satin and carried a
bouquet of white roses. Her bridesmaid wore
a dress of peach georgette over yellow and
carried butterfly roses. The flower girl wore
a dress of ciel blue georgette and carried a
basket of rose petals. The bride and groom
stood under an archway of cut flowers and the
home was decorated with cut flowers and
potted plants.

The bride's gift to the bride was a
string of opalescent pearls and the groom
gave his best man an emblem ring.

Following the wedding, a reception was
held and was attended by guests from Lowell,
Albany, N. Y., New Jersey, Philadelphia,
Minnesota, Laconia, N. H., and Keene.

Mr. Thompson has taken his bride on an
extended wedding trip to Canada. When
they return they will take up their residence
in their new home at the corner of Andover
and Phillips street, Lawrence.

Previous to her marriage, Mrs. Thompson
was employed in the office of the Shawsheen
Mills, where Mr. Thompson is also employed
as a section hand.

Bowling Match Saturday

A bowling match on the local green which
is creating great interest will be bowled
Saturday afternoon when teams representing
Andover and Shawsheen will meet on two
rinks. There is keen rivalry between the
bowlers of the two sections of the town and a
bitter struggle is expected.

William MacKenzie is in charge of the
Andover team and has a large number of
excellent bowlers to choose from.

The match will begin at three o'clock.

New Arrival

A son was born Saturday evening, to Mr.
and Mrs. Garfield S. Chase at the family
home, 13 Canterbury street. The family
now consists of three boys and two girls. Mr.
Chase is the well-known district manager for
the Eastern Massachusetts Street Railway,
while the mother was formerly Miss Harriet
Stevens of West Newbury.

National Playground

Three tracts of public land, two in
southern California and the other on the
eastern coast of Florida, were tem-
porarily set aside for outdoor recrea-
tional purposes through executive or-
ders issued recently on the recommen-
dation of the secretary of the Interior.
The California tracts consist of 1,822
acres in San Bernardino county. One
contains springs and an excellent
camping site accessible to public high-
ways. The other includes Indian pic-
tographs and beautiful scenery at the
junction of two canyons. The tract in
Florida contains 52 acres. It is in
St. Lucie county on the Atlantic ocean
and has an excellent bathing beach.—
New York Times.

Preserve Famous Ship

The English have concluded their
processes of reconstruction and pres-
ervation on Nelson's famous flagship,
Victory. A ship which made so much
history and which served as the sea
home of such a famous Englishman
ought to be preserved. Incidentally
she may be interesting to the present
British generation as a reminder that
in Nelson's day a first-class ship of
the line could be built for a cost of
about \$100,000, whereas in these times
one costs \$30,000,000 and goes to the
scrap heap in a decade.—Worcester
Telegram.

Rain from Gulf and Sea

The rainfall of our South and Mid-
dle West states consists mostly of wa-
ters from the Gulf of Mexico and the
Caribbean sea.—Science Service.

FALL RIVER IN OPENER

Winners of American League Will Be
Stellar Attraction Against Indians
at Balmoral Field September 5

Under the careful supervision of George
M. Wallace, the manager and training staff
have sent out a call to all the Shawsheen
soccer players to report for practice Tuesday
and Thursday evenings of each week so that
every man on the Shawsheen register will
be fit when the last gong sounds for the
opening with Fall River at Balmoral park,
Saturday, September 5, when Sam Marks
and his American Soccer champions will in-
vade Balmoral for the first time in the history
of the Fall River club to battle the National
champions.

Everyone connected with the team is con-
fident that Shawsheen will make a very
creditable showing in the American league in
its first attempt in the big league circuit. The
one big question with the management at
present is that of transportation for the
Lawrence and Methuen fans to and from
Balmoral park. While there is nothing
opposite as yet on this proposition, Mr.
Wallace is still working on it and hopes to
have better service and lower rates for the
supporters. The practice of other American
league teams of charging extra for seats in
the grandstand over and above the admission
price, will not be followed at Shawsheen, the
straight admission being the only charge.
It is probable that there will be a reserved
section for the schoolboys who have a league
of their own in this district.

Alex Lorrimer, formerly of Fall River last
season, has arrived here and is in training
with the rest of the players. Andy Stradan,
the flying centerforward from Fletcher
Yarn, will be here within a few days. He is a
player who wins favor with the fans wherever
he plays. On a recent visit to the village he
expressed a great desire to play for Shaw-
sheen and the management was quick in
signing him.

Harry McGowan is all fired to play for
Shawsheen this season and was with Fall
River last season at left wing. He is the
player who displaced Frank McKenna,
the idol of Fall River, two seasons ago.

Evans and McCormick the two Irish
players, are expected here this week. These
players come with a good reputation from
Erin's Isle. Tommy Murdock who played
goal last season will be found holding down
the same position again this year. He has
already refused several offers to stay in
Scotland where he has been spending the
summer. He received a most flattering offer
from his home town, Glasgow. Murdock
stated in a letter that industrial conditions
are not any too good in Scotland and will
sail for this country sometime this month.

The soccer fans can now prepare for the
biggest, best and longest soccer season ever
experienced in this section in the history
of the game. The New England teams are
favored with home games early, as the season
is more open around New York and Phila-
delphia, than it is in New England later in
the fall.

The full schedule calls for forty-four games
and the following is the schedule for Shaw-
sheen for the first two months as drawn up
by the officials of the league.

Aug. 29—Brooklyn or Boston, exhibition
game at Balmoral park.

Sept. 5—Fall River, exhibition game at
Balmoral park.

Sept. 12—Providence, league game at
Balmoral park.

Sept. 19—Fall River, league game at
Balmoral park.

Sept. 20—Brooklyn, league game at
Brooklyn.

Sept. 26—Boston, league game at Boston.

Oct. 3—New Bedford, league game at
New Bedford.

Oct. 10—J. & P. Coates, league game at
Balmoral park.

Oct. 12—New York Giants, league game
at Balmoral park.

Oct. 17—J. & P. Coates, league game.
October 24—Bethlehem, league game at
Balmoral park.

Oct. 31—Newark, league game at Bal-
moral park.

Nov. 1—New York Giants, league game
at New York.

Fishing Party at Shoals

Several disciples of Isaak Walton from the
village spent last Saturday on the Isles of
Shoals luring members of the finny tribe
from their haunts with varying degrees of
success. The majority of the party returned
with a good catch, and it is rumored that
the party prevailed on Henry Simmers to
have his catch, one, mounted and placed on
exhibition at the Spa. Anyone who desires
to learn the fine arts of fishing should see Mr.
Simmers and find out just how it is done.

Those who attended were Albert Ennis,
James G. Hill, Austin Huggins and Henry
Simmers with several friends from Man-
chester, N. H.

STUDY OF BIRDS OBJECT OF TRIP

Prof. H. H. Nininger to Go
From S. Dakota to Mexico.

McPherson, Kan.—A study of bird
life from South Dakota to Mexico City,
and back along the western coast of
Mexico and the United States to Cana-
da, will be made this summer by
Prof. H. H. Nininger, head of the bi-
ological department of McPherson col-
lege here.

Professor Nininger will make the trip
under the auspices of the National
Ornithology society, and it is expected
to result in the most important discov-
eries in the interests of ornithology.
The party will start from western
South Dakota and travel in a house-
car built especially for the purpose.

Care will be taken to keep well
ahead of cold weather, so that the birds
can be studied in advance of the
migratory period for the American
species.

Crossing the Rio Grande, the party
will continue south, gathering data on
the species both rare and common to
Mexico. While there, the migratory
birds of the northland, which will
have sought winter quarters, will be
closely observed.

From the City of Mexico, Professor
Nininger will move northward, trav-
eling along the western coast of Mexico
and the United States until the Cana-
dian border is reached.

Colleges and universities along the
route in both countries have asked
Professor Nininger for his disclosures.

Fear Dam Will Erase

Indian Rock Relic

Philadelphia.—The threatened obliteration of the famous Indian rock in the Susquehanna river at Conowingo by the construction of a huge dam for electric power at that point is raising protests from many groups.

Hieroglyphs, said to be the oldest Indian writing in America, are written on this and other rocks of the region.

Members of the Smithsonian institution and other scientific groups have asked that these "prehistoric chicken tracks," relics of aboriginal life in America, be preserved. Interest has been aroused to such an extent that the Susquehanna Power company has offered \$5,000 to aid anyone who will engage in their removal or preservation.

Mystery and romance of prehistoric days surrounding the picture-scratched rocks, half-submerged in the river which have not yet been deciphered add to the appeal for their preservation in the face of the insistent demand for "more power" on the part of modern industry, which has made the building of the dam necessary.

The chief relic, Indian rock, ever now is not always visible to human eyes. It is one huge block of granite a solid islet of rock in the middle of the Susquehanna, and is about 20 by 30 feet in size. Only at low water can it be seen, and it can be located only by boatmen who know the river well.

Built in Day

Bulaski, Va.—Walker's Creek church, about eight miles north of Marion and built in a day, was dedicated the other day. More than six hundred attended the service. The church is a frame building, erected at a cost of approximately \$3,000.

Proud of Tree

Auburn, Maine.—The largest maple tree in the state of Maine is in the door yard of the Hurd homestead at Fryeburg harbor. The circumference of the tree one foot from the ground is 28 feet, and at the smallest part of the trunk it is 22 feet around.

25 Years in Parliament, but Never Made Speech

London.—Lord Waleran, better remembered as Sir William Walrond, who died at the Grosvenor hotel at the age of seventy-six, was one of the ablest whips the Conservative party ever had.

During the 25 years he sat in parliament he established a record—by never making a speech.

Many stories are told of his resourcefulness on the eve of critical divisions. On one occasion the prime minister, then Mr. Balfour, was addressing the house when the chief whip noticed that the government was in a minority. It was imperative to call Mr. Balfour's attention to the fact, but the problem was how to do so.

Sir William Walrond solved that problem by a stroke of genius. He deliberately passed between the premier and the speaker, defying all the rules of the house and all the canons of courtesy. The house was agitated, the prime minister petrified; but a whispered word explained the apparent affront, the imminent division was postponed, and a government defeat averted.
